Full product description

Xiaomi Robot Vacuum S12: Modern Cleaning at the Highest Level.

Xiaomi Robot Vacuum S12 is a real breakthrough in **automatic cleaning**. With advanced **LDS** mapping, this robot learns the layout of your home quickly and efficiently. This smart device plans cleaning routes to reach every nook and cranny. It maps, navigates, cleans - now your home will be sparkling clean without your effort.

Precise navigation even in the dark

Equipped with 12 sensors, **Xiaomi Robot Vacuum S12** can detect **complex environments** even in the dark. This advanced technology greatly **reduces the risk of accidents**, ensuring effective and safe cleaning. You don't have to worry about obstacles - the robot can handle them.

Very powerful suction, thorough cleaning

With a suction power of **4000 Pa** and four adjustable **suction levels**, the **Xiaomi Robot Vacuum S12** excels at removing **dust and dirt**. The device can catch even **the smallest dust particles**, ensuring your home is spotlessly clean. Thorough cleaning is a standard you can now have every day.

Vacuuming and mopping 2-in-1

The **innovation of the Xiaomi Robot Vacuum S12** also includes a **2-in-1** vacuuming and mopping function. A smart water tank with three flow levels allows you to adjust the amount of water according to the type of floor, preventing it from getting too wet. It's ideal for **all types of floors, from carpets to hard surfaces**. The xiaomi cleaning robot will clean everything.
