Price: **629.00 zł** gross / 511.38 zł net

Manufacturer: XIAOMI

Referention number: DNXGJONRFRMNGH

Information:

Xiaomi Robot Vacuum S40C is an intelligent vacuuming and mopping robot that makes everyday cleaning easier thanks to 360° LDS laser mapping, 5000 Pa suction power and precise navigation with multiple sensors. It offers four operating modes, three water flow levels for mopping, and large tanks: 520 ml for dust and 260 ml for water, which reduces the need for frequent emptying and refilling. The robot efficiently avoids obstacles and crosses thresholds up to 20 mm. Control via the Xiaomi Home app and voice commands with Alexa and Google Assistant provide convenience, while OTA updates support ongoing improvements.

Product features

Height	97 mm
Width	340 mm
Depth	340 mm
Base station dimensions (W x D x H)	130 mm
Programming function	Yes
Vacuum	5 kPa
Shape	Round
Remotely operated	Yes
Works with the Google Assistant	Yes
Battery capacity	2600 mAh
Battery voltage	14.4 V
Brush type	Roller brush & Side brush
Power consumption (typical)	55 W
Automatic base station return	Yes
Base station	Yes

Base station input voltage	20 V
Smartphone/tablet remote support	Yes
IFU / User manual	Yes
Base station output voltage	20 V
Wet mopping	Yes
AC adapter included	Yes
Easy to clean	Yes
Works with Amazon Alexa	Yes
Warranty card	Yes
On/off switch	Yes
Base station functions	Charging
Navigation type	Laser Distance Sensor (LDS)
Rechargeable	Yes
Product colour	White
Bumper guard	Yes
Built-in display	No
Dust container type	Bagless
Product weight	3440 g

Full product description

Effortless cleaning

Xiaomi Robot Vacuum S40C is a device designed for vacuuming and mopping floors at home. It combines **LDS laser mapping**, high **5000 Pa suction power** and large dust and water tanks, making everyday tidying less time-consuming. The vacuum cleaner offers selectable operating modes, remote control via an app and voice control, so it adapts to different needs and room types.

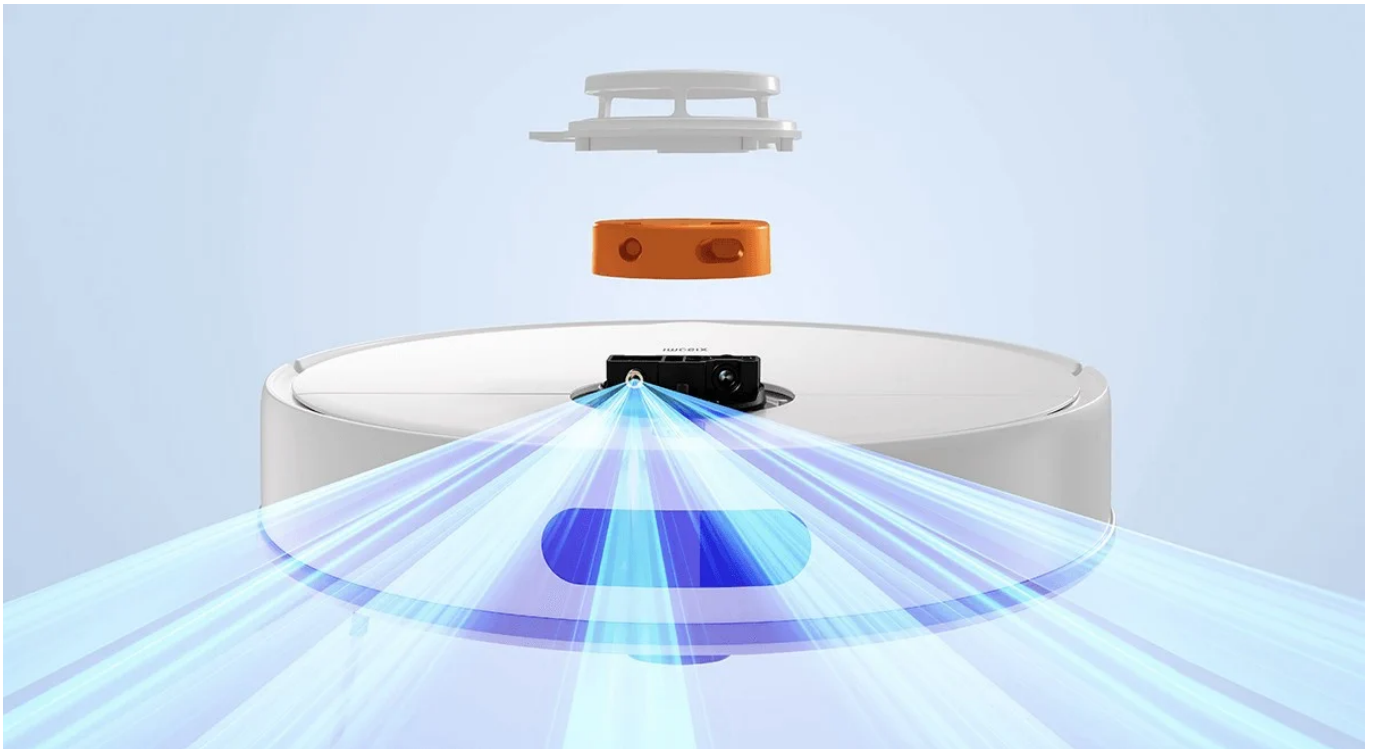

Key benefits

- **Precise mapping** – fast 360° scanning and map memory minimise repeated cleaning.
- **High 5000 Pa suction power** – makes it easier to remove large debris and hair.
- **Large tanks** – 520 ml for dust and 260 ml for water reduce the frequency of emptying and refilling.
- **Three water flow levels** – adjust mopping moisture for different surfaces.
- **Multiple sensors** – lower risk of getting stuck and reliable obstacle avoidance.
- **Remote and voice control** – operation via the Xiaomi Home app and compatibility with Alexa and Google Assistant.

Intelligent laser navigation

The **LDS laser system** scans rooms in a 360° range, creating detailed maps and planning cleaning routes to reduce missed spots. Thanks to the stored map, the robot returns to the docking station more quickly and avoids repeating the same areas, contributing to more efficient cleaning of the whole home.

Suction power and operating modes

The device offers four operating modes: **quiet mode**, **standard**, **high performance** and **Turbo**. The maximum suction force of **5000 Pa** helps quickly collect large particles and pet hair. Different modes allow you to match performance to current needs — from discreet night-time cleaning to thorough removal of dust and dirt.

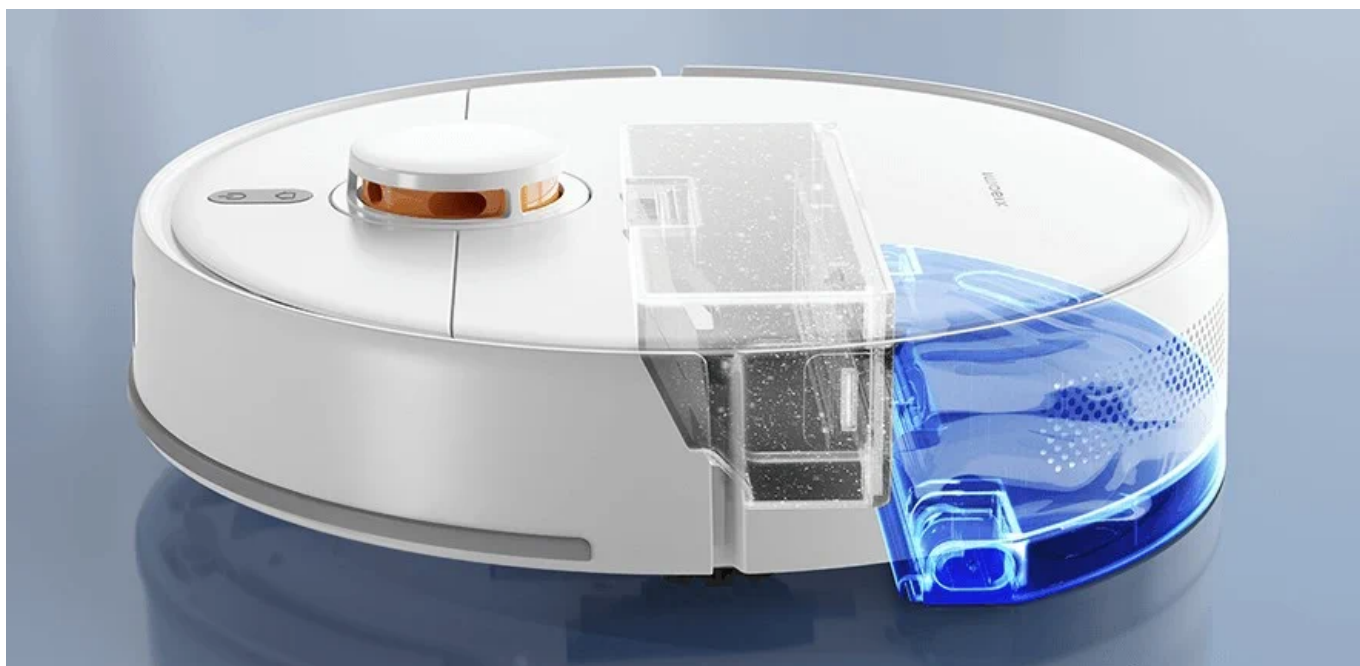

Precise mopping

The mopping system with intelligent water flow control offers three levels (**Level 1**, **Level 2**, **Level 3**), allowing the working moisture to be adjusted for **wood**, **tiles** or mixed surfaces. Even water distribution reduces over-wetting and helps effectively remove stains.

Capacity and obstacle handling

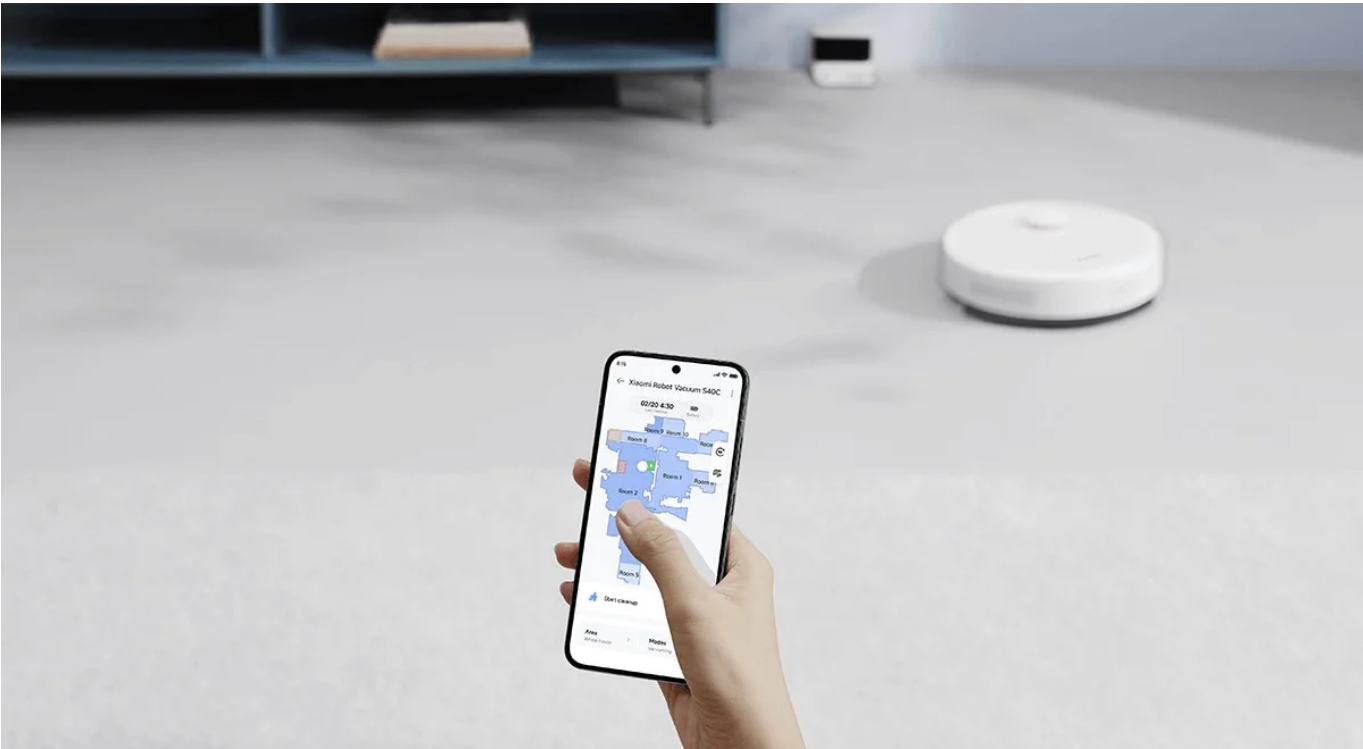

A **520 ml** dust container and **260 ml** water tank mean less frequent emptying and refilling, which makes cleaning larger areas easier. Thanks to numerous sensors, the robot recognises its surroundings and easily crosses thresholds up to **20 mm**, helping it move smoothly between rooms.

Control and integrations

Remote control via the **Xiaomi Home** app allows you to start cleaning, schedule tasks, monitor progress and select zones. Voice control works with **Amazon Alexa** and **Google Assistant**, allowing convenient hands-free starting or stopping. OTA functions are also available for software

updates.

Specification

Parameter	Details
Product name	Robotic Vacuum Cleaner
Product model	E101
Product dimensions	340 × 340 × 97 mm
Rated power	55 W
Rated voltage	14,4 V□
Charging voltage	20 V□
Battery capacity	2400 mAh (rated) / 2600 mAh (nominal)
Net weight	3,44 kg
Docking station	
Station model	E101CDZ
Power input/output	20 V□ 0,6 A
Station dimensions	130 × 121 × 95 mm
Package contents	Robot Vacuum, Mop and tank assembly, Side brush, Power adapter, Docking base, Manual, Warranty
