Full product description

Xiaomi Router AX1500 RD12 - Speed, reliability and coverage in your home!

Xiaomi Router AX1500 RD12 is an advanced device that provides high-speed Internet access and reliable Wi-Fi connections thanks to its support for Wi-Fi 6 technology. Equipped with innovative solutions, it guarantees smooth operation even with multiple connected devices.

Strong coverage and stable connection throughout the house

With four high-gain antennas, the Xiaomi AX1500 router provides **excellent coverage throughout the home**. Even in large spaces, the signal reaches the farthest corners, eliminating dead zones. It's ideal for a multi-level home or sprawling apartments where Wi-Fi coverage is crucial.

Ideal for multiple devices

As the photos show, the Xiaomi AX1500 works perfectly with multiple devices at the same time, such as smartphones, tablets and laptops. With **Wi-Fi 6 and OFDMA** technology, the router easily handles multiple connections without losing speed. It's ideal for families and offices where multiple devices use the network at the same time.

Modern design to fit any interior

The simple white design of the Xiaomi Router AX1500 RD12 fits perfectly into modern interiors. As you can see from the photos, **the router is sleek and compact**, so it can be placed in the living room, bedroom or office without disturbing the aesthetics of the room.

Mesh technology for complete Wi-Fi coverage

In the photo below, we see how the **Wi-Fi Mesh technology** extends the signal to all floors and rooms of the house. This means the user can move freely throughout the house without losing Wi-Fi connection. Perfect for multi-story homes or large apartments.
