Temperature (min)	40 °C
Basket dimensions (WxDxH)	199 mm
Frying function	Yes
Display type	OLED
Control type	Rotary
AC input frequency	50 Hz
AC input voltage	220 V
Temperature (max)	200 °C
Product colour	White
Construction type	Single
Power	1600 W
Built-in display	Yes
Product weight	3900 g

Full product description

Easy cooking for beginners

There's no need to pull out the fryer basket to check your food, **the Xiaomi Smart Air fryer Pro 4L** is equipped with a triple-layer, heat-insulating, transparent window for real-time visual inspection of cooking status. A delicious meal is cooked right before your eyes.

Increased capacity of the fryer

Optimal 4-liter volume with the **ability to cook meals for 1-5 people** per day, combined with an exclusive grill to make more efficient use of cooking space. Cook for more people without taking up extra space.

Say goodbye to kitchen clutter

The **Air Fryer** can do more than just fry food in the air at high temperatures: it can ferment, thaw and bake fruits, vegetables and meat. **Air Fryer** integrates the functions of various kitchen appliances, such as an oven, fruit dryer, yogurt machine, etc.

360° hot air circulation

The 360° hot air circulation, combined with 1600 W heating power, enables rapid temperature rise and more even heat distribution inside the fryer. Efficient cooking that squeezes the fat from the food retains the juice and nutrients, without the need to add oil.

OLED display

Not only can the temperature and cooking time be easily adjusted with one turn and one press, but you'll also get a reminder when it's time to shake your food. The **Xiaomi Smart Air Fryer** offers 11 preset modes, one-click smart cooking and support for customized information displayed in the app.
