Product features

Product type	Air purifier filter
Height	171 mm
Width	175 mm
Depth	175 mm
Compatibility	Xiaomi Smart Air Purifier 4 Compact
Brand compatibility	Xiaomi
Product colour	White
Product weight	400 g

Full product description

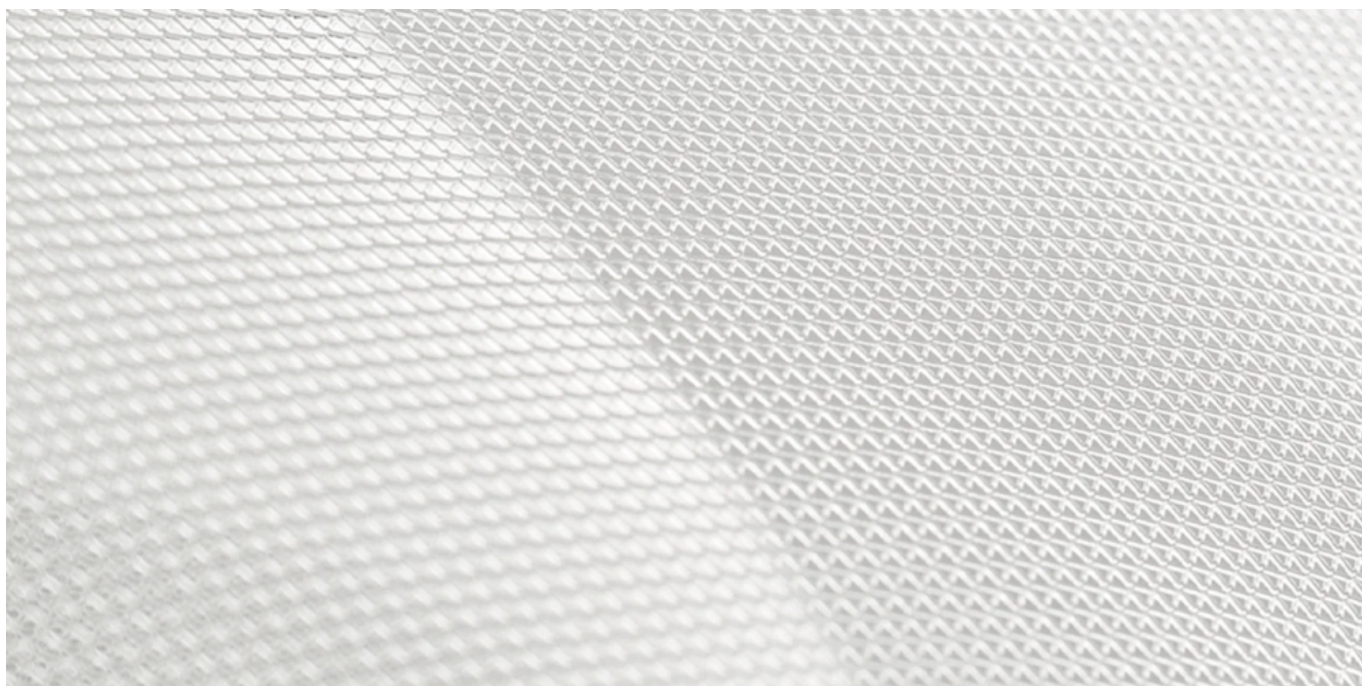

3-in-1 filter

The main filter, Xiaomi's High Efficiency Filter, and a high-quality activated carbon filter work together to clean the air and keep it clean.

Main filter

The main filter traps large particles such as dust, hair and fine shavings, while being extremely durable as it resists creases, oil and acids.

Xiaomi high-performance filter

The filter traps 99.97% of 0.3 μm particles and filters out PM2.5, pollen and other allergens, constantly producing clean air.

Long-lasting filter for daily freshness

Although the integrated filter is durable, its performance may gradually decrease over time. For best results, replace the filter every 6-12 months.

Mi Home/Xiaomi Home app connectivity

You can see the filter consumption at any time in the Mi Home/Xiaomi Home app, which could estimate the filter replacement period based on daily use.
