Camera pan control	Yes
Product colour	White
Mounting hardware type	Ceiling/Wall/Desk

Type	IP security camera
Designation	Indoor

Full product description

Xiaomi Smart Camera C301 - a modern IP camera that provides full security for your home

Thanks to its high 1296p resolution, Wi-Fi 4 technology and advanced artificial intelligence features, you can keep tabs on what's going on in your surroundings, even when you're away from home. The 360° rotation offered by the camera allows you to fully monitor the entire space, and night vision provides protection even at night.

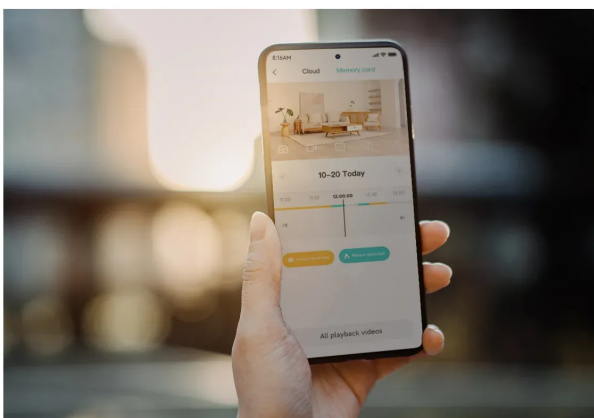

Turnover for complete control

With 360° rotation, Xiaomi Smart Camera C301 provides full monitoring of the space. The camera can move horizontally and vertically, eliminating blind spots. It's ideal for monitoring large rooms or outdoor spaces.

High resolution 2K

Xiaomi Smart Camera C301 offers 2K (1296p) video quality, which guarantees **clear and detailed recordings**. This ensures that each video frame is full of detail, which is essential when identifying objects or people. The high resolution makes the camera ideal for both day and night use.

Night vision for protection at night

The Xiaomi Smart Camera C301 is equipped with night vision, which provides excellent night vision, even in total darkness. You can rest assured that your **space will be monitored 24/7**, regardless of lighting conditions. This solution is ideal for protecting your home or office while you are away.

AI motion detection and real-time notifications

The camera is equipped with **advanced AI technology** for intelligent motion detection. When the camera detects motion, it immediately sends notifications to your mobile device, alerting you to a potential threat. In addition, this feature minimizes false alarms by eliminating irrelevant movements, such as moving curtains.
