Full product description

Extralink C3 350x460 courier foil packs - Durable and Safe Packaging

Extralink courier foil packs are the ideal solution for those who want to ensure the safety of their shipments. Thanks to the combination of durability and aesthetics, the product is perfect for both everyday shipping and special occasions. **Packing becomes easier** and parcels will reach the addressee intact.

Durability at the highest level

Extralink courier foil packs are made of **heavy-duty LDPE film**, which makes them resistant to tearing and damage. The thickness of 55 microns guarantees that the contents remain intact even during intensive transport. It's a solution that ensures the safety of any shipment.

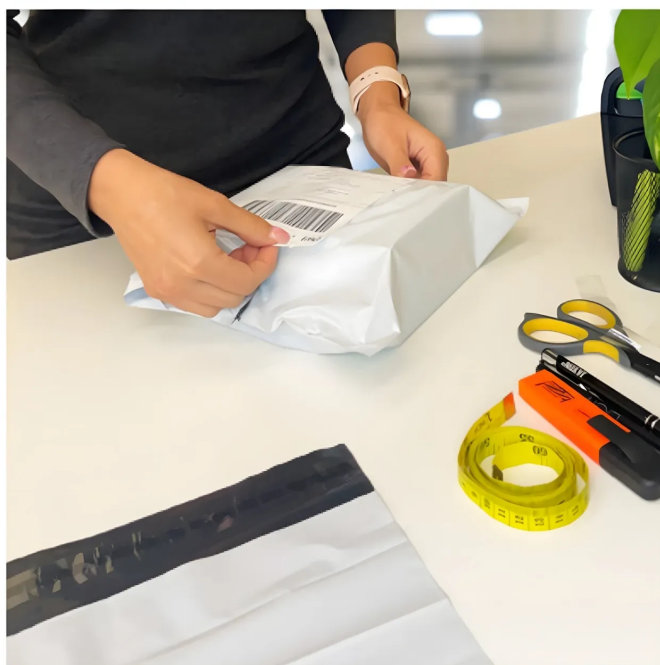

Waterproof and discreet

Thanks to the film's waterproof properties, **shipments are protected from moisture**, which is crucial in harsh weather conditions. The opaque white color ensures discretion and protects the contents from unwanted glances. This is especially important when shipping valuable items.

Ease and speed of packaging

Each foil pack is equipped with **a self-adhesive strip** that allows you to quickly and securely close your shipment. No need for additional tape saves time and makes packaging easier. This is an ideal solution for those selling online.

Ecological and professional approach

Extralink courier foil packs are made **from 50% recycled materials**, making them environmentally friendly. At the same time, their white color and aesthetic design make the shipments look professional and neat, reinforcing a positive impression with customers.
