Price: **429.00 zł** gross / 348.78 zł net

Manufacturer: XIAOMI

Referention number: DNXGGKKNIRMMJM

Product features

Input voltage	5 V
Cartridge type	Built-in battery
Connectivity technology	Wireless
Oven input frequency	433 MHz
Night mode	Yes
Detection angle	180 °
Best uses	Home
Energy usage	5200 mA
Human detection	Yes
Built-in camera	Yes
Motion detection system	Dual Motion Detection
Motion detection supported	Yes
Battery current	2 A
Easy to install	Yes
Illuminated push button	Yes
Wi-Fi standards	802.11b
Bell height	23.5 mm
Wi-Fi	Yes
Bell depth	60 mm
Bell width	128 mm
Face recognition	Yes
Mobile operating systems supported	Yes

Volume	79 decibel
Power source type	Battery
Vertical field of view	180 °
Horizontal field of view	107 °
Product colour	Black
Mounting hardware type	Ceiling/Wall

Full product description

Reliable protection around the clock

Xiaomi Smart Doorbell 3 is equipped with state-of-the-art optics and infrared sensors, the doorbell provides 24/7 surveillance and ultra-clear 2K video, and artificial intelligence-based body recognition technology identifies that you have a visitor in a split second. If someone approaches the door, the tracking function will be activated and you will immediately receive a notification on your smartphone

Real-time monitoring

With **Xiaomi Smart Doorbell 3** , you can find out what's happening in front of your door anytime, anywhere. With remote viewing via your smartphone, you have a clear panoramic view of the area in front of the entrance with viewing angles of 107° vertically and 180° horizontally.

Two-way audio

If someone rings the doorbell, you can see who it is and talk to the visitor using your smartphone without opening the door. The **voice changer function** will help you maintain privacy.

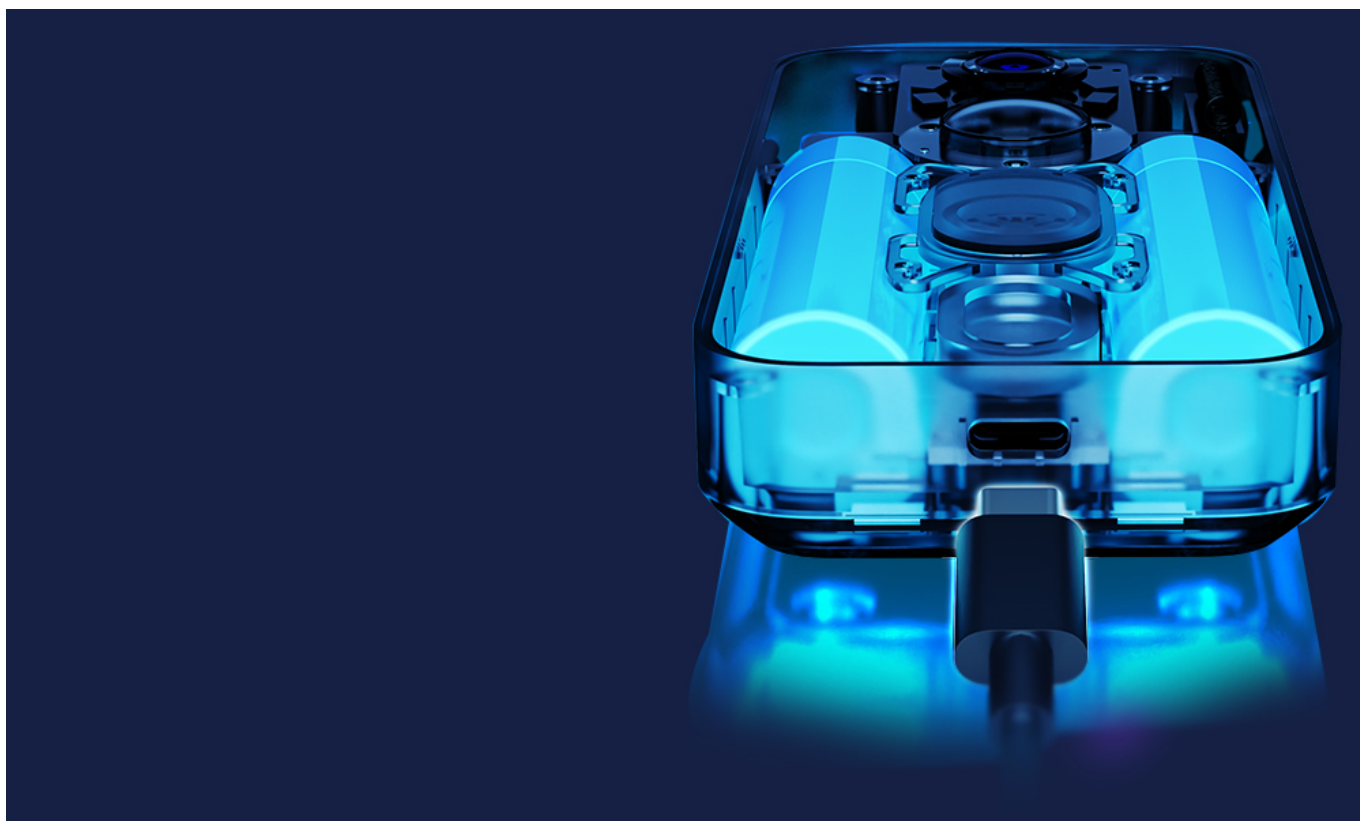

Clear video at night

Even with or without poor lighting conditions, the **Xiaomi Smart Doorbell 3** will capture clear and easy-to-read video. The 4 built-in infrared light sources with a wavelength of 940 nm make it easy to identify the person approaching the door even in the dark.

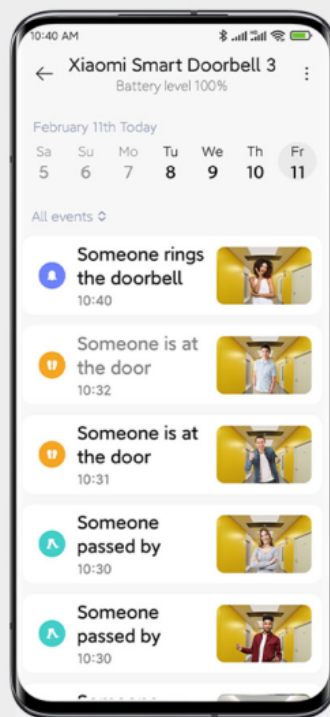

Enhanced autonomy

Xiaomi Smart Doorbell 3 has very low power consumption. Therefore, charging the built-in 5200 mAh lithium battery will last for more than 4 months. This means that the battery will need to be charged no more than 3 times a year. The **USB Type-C port** allows quick and hassle-free charging of the battery.

Free video storage

Free cloud storage saves recordings for 72 hours. And that means you won't need memory cards and additional subscriptions to paid services. All relevant information is in quick access for up to 3 days.

High volume bell

With 4 volume settings to choose from, the standard high volume indoor ringer will be clearly heard in noisy environments. "Do Not Disturb" mode mutes the ringer when you don't want to be disturbed.

Multiple levels of theft protection

- Forced removal alert
- Strong 3M adhesive
- Screw fixation
- Account pairing

If someone tries to remove the doorbell, an alarm will be triggered, a video recorded and a notification sent to a smartphone.
