Information:

Xiaomi Smart Projector L1 Pro is a compact home projector with a native 1080p resolution and support for 4K content, projecting an image of up to 120°. The 400 lumen ISO/ANSI brightness ensures a clear picture during evening viewing, while automatic keystone correction, automatic focus, obstacle detection and screen alignment make it easy to get started quickly. Google TV and Google Cast provide convenient access to apps and screen casting from your phone. Built-in 2x5 W speakers with Dolby Audio, quiet operation, 2 GB RAM and 16 GB of memory, and a 360° Bluetooth remote control enhance everyday comfort.

Product features

Screen mirroring	Yes
Storage relative humidity (H-H)	0 - 90%
Power source	mains electricity
Product type	Standard throw projector
Height	189 mm
Width	128 mm
Depth	210 mm
Remote control included	Yes
Packaging content	Projector x1 Remote Control*1 Power Adapter*1 Power Cable 1 User Manual Warranty Notice Desiccants
Sharpness levels	Auto
Storage temperature (T-T)	-20 to 55 °C
Cables included	Power
Power consumption (typical)	120 W
Humidity measurement range	20 - 80%

Smart TV	Yes
IFU / User manual	Yes
Power consumption (standby)	0.5 W
Operating temperature (T-T)	0 – 40 °C
Audio decoders	Dolby Audio
Noise level	30 decibel
Throw ratio	1.21 : 1
Internal memory	16 GB
Wi-Fi standards	802.11a
Wi-Fi	Yes
Bluetooth version	5.0
Bluetooth	Yes
Number of built-in speakers	2
Built-in speaker(s)	Yes
Projector brightness	400 ANSI lumens
Built-in processor	Yes
AC adapter output voltage	19 V
Market positioning	Home cinema
Product colour	Black
Internal memory type	DDR3
RMS rated power	10 W
Auto power off	Yes
Screen size compatibility	40 "
Smart projector	Yes
Projection technology	LCD
Full HD	Yes
Internal memory	2 GB
Projector native resolution	1080p (1920x1080)
Product weight	2000 g

Full product description

1080p image on a large screen

Xiaomi Smart Projector L1 Pro is a compact home projector that displays an image in **native 1080p resolution** and supports **4K** content. Thanks to **400 ISO lumens** of brightness, it is ideal for evening viewing, and a screen size of up to **120"** turns an ordinary wall into a comfortable entertainment centre.

Key advantages

- **400 ISO lumens** – a clearer image and better visibility of details in home conditions.
- **1080p** – a sharp image for films, series and presentations.
- **4K support** – more detail when playing compatible content.
- **Automatic keystone correction** – quick adjustment to a rectangular image without manual corrections.
- **Automatic focus adjustment** – a sharp image even after moving the projector.
- **Google TV** – access to content from many apps in one place.

Brightness and image detail

A fully sealed optical engine with a high light-transmission lens reduces the impact of dust on the device's operation and maintains stable image quality. The picture retains good sharpness and accurate colours, so viewing does not lose clarity even with frequent use.

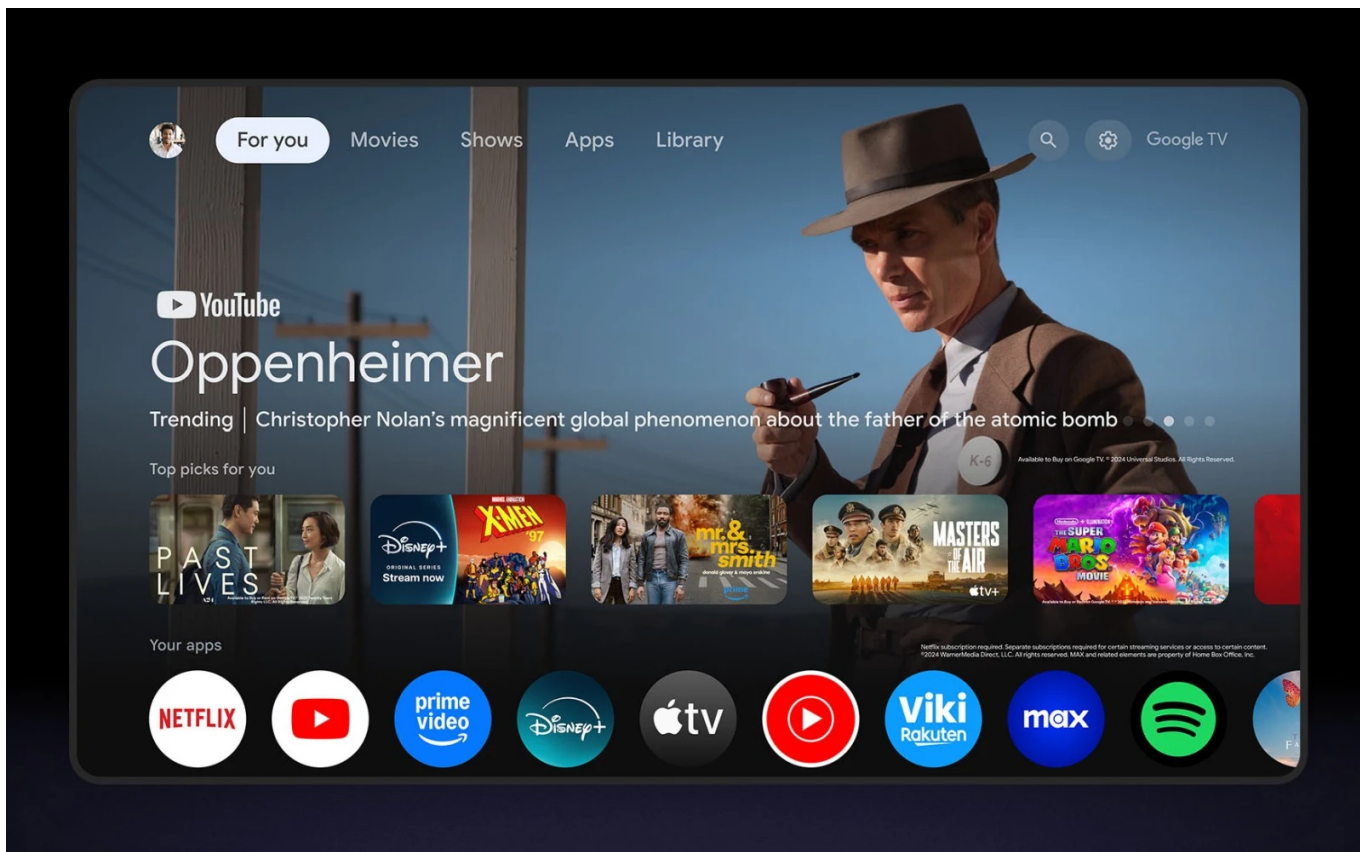

Automatic image setup

The projector automatically adjusts the frame to the wall or screen thanks to an intelligent keystone correction algorithm, obstacle detection and automatic screen alignment. This means fewer manual adjustments and a quicker start to viewing, even when the device is placed to the side or slightly tilted.

Google TV

The **Google TV** system organises films and programmes from different services in one interface, while **Google Assistant** speeds up content search and projector control. You can also play music, control compatible smart home devices and use voice commands without reaching for the menu.

Efficient components

Operation is powered by the **MT9630** chipset supported by **2 GB of RAM** and **16 GB of internal storage**. This setup keeps the interface running smoothly, reduces delays when switching apps and provides more convenient use of smart features.

Sound without extra equipment

Built-in **dual 5 W speakers** with **Dolby Audio™** certification provide fuller sound when watching films and series. As a result, the projector does not immediately require a separate audio system, and viewing becomes more convenient in the living room, bedroom or during get-togethers with friends.

Quiet operation and durability

A quiet cooling system with a dual-loop design dissipates heat without excessive noise, so it does not drown out dialogue or music in films. The fully sealed optical engine reduces dust build-up, and extensive quality testing confirms the device's resistance to long-term use.

Portable home use

The compact housing makes it easy to set up the projector in different rooms, and the Bluetooth remote with **360°** range gives you the freedom to control it from the sofa or bed. In addition, you can cast image and sound from your phone or tablet, shortening the path from choosing content to starting playback.

Technical data

- **Name:** Xiaomi Smart Projector L1 Pro
- **Model:** XMTYY03PFMG
- **Item dimensions:** 210 × 128 × 189 mm
- **Weight:** 2.0 kg
- **Display technology:** LCD
- **Brightness:** 400 ANSI lumens
- **Resolution:** 1920 × 1080P
- **Projection ratio:** 1.21: 1
- **Screen size:** 40" 120" (recommended: 60-100").
- **Lens focus:** Automatic focus adjustment
- **Keystone correction:** Automatic keystone correction
- **Automatic obstacle avoidance:** Supported
- **Automatic screen alignment:** Supported
- **Projection method:** Front, side, elevated (15°)
- **Processor:** High-performance MT9630 chipset
- **Built-in memory:** 2 GB DDR3 / 16 GB eMMC
- **System:** Android TV™ operating system
- **Screen mirroring:** Google Cast
- **Bluetooth:** Bluetooth 5.0
- **Wireless connectivity:** Wi-Fi IEEE 802.11 a/b/g/n/ac 2.4 GHz / 5 GHz
- **Sound effects:** Dolby Audio
- **Speaker:** Full-range 5 W x2
- **Rated power:** ≤120.0 W
- **Standby power:** ≤0.50 W
- **Automatic power off:** Supported
- **Input:** 19.0 V □ 6.32 A
- **Noise range:** ≤ 30 dB(A) (in cinema mode at an ambient temperature of 25°C)
- **Storage temperature/humidity:** -20°C to 55°C ≤90% relative humidity
- **Operating temperature/humidity:** 0°C to 40°C / 20-80% relative humidity
- **Package contents:**
 - Projector*1
 - Remote control*1
 - Power adapter*1
 - Power cable*1

- User manual
- Warranty information
- Desiccants
