Information:

Xiaomi Smart Scale S200 is a smart scale that precisely measures body weight, BMI, body fat percentage and muscle mass, helping you monitor your health and fitness progress more effectively. The 50 g accuracy makes it possible to detect even small changes, while Bluetooth 5.4 enables fast transfer of results to the Mi Fit app and convenient real-time data tracking. The scale also offers a body balance monitoring function, useful for assessing stability and posture. Support for up to 16 users makes it ideal for the whole family.

Product features

Height	24.5 mm

Bluetooth	Yes
Control type	Wireless
Product colour	White
Body Mass Index (BMI) measuring	Yes

Minimum weight capacity	0.1 kg
Type	Electronic personal scale
Product weight	1200 g

Full product description

Your Path to Better Health with Xiaomi Smart Scale S200

Xiaomi Smart Scale S200 is a smart scale that not only measures your weight, but also analyses body composition, enabling you to monitor your progress on the way to a healthy lifestyle. Thanks to advanced technology, precise sensors and Bluetooth 5.4 connectivity, this smart scale is the ideal solution for everyday fitness tracking.

Precise Body Composition Measurement

Xiaomi Smart Scale S200 offers accurate measurements thanks to the use of modern high-precision sensors. The scale **measures 3 types of data**, including **body fat percentage**, **muscle mass** and **body mass index (BMI)**, giving you a fuller picture of your health. With **reading accuracy of 50 g**, every change in your body is precisely recorded and tracked, allowing for better management of your fitness.

Bluetooth 5.4 Connectivity

Thanks to **Bluetooth 5.4**, Xiaomi Smart Scale S200 connects to your smartphone or tablet, allowing easy data transfer to the **Mi Fit** app. You can easily check your results on the screen of your mobile device, and the app allows for long-term **monitoring** of progress. In addition, real-time synchronisation enables accurate analysis of results and adjustment of your training plan or diet.

Body Balance Monitoring Function

Xiaomi Smart Scale S200 not only measures weight, but also **assesses body balance**. This function is extremely helpful in diagnosing posture, stability and coordination. Regular monitoring of this function can help **prevent health problems** related to poor posture or lack of balance.

Supports Up to 16 Users

With support for **up to 16 users**, Xiaomi Smart Scale S200 is an excellent solution for the whole family. The scale automatically recognises the people using the device, allowing personalised results and tracking the progress of each user. It is the ideal option if you want to monitor changes in body composition in several family members or friends
