Type	Electronic personal scale
Product weight	1200 g

Full product description

Your Path to Better Health with Xiaomi Smart Scale S200

Xiaomi Smart Scale S200 is a smart scale that not only measures your weight, but also analyzes your body composition, allowing you to monitor your progress on the road to a healthy lifestyle. With advanced technology, precise sensors and Bluetooth 5.4 connectivity, this smart scale is ideal for daily fitness tracking.

Precise Measurement of Body Composition

The Xiaomi Smart Scale S200 offers accurate measurements thanks to its state-of-the-art high-precision sensors. The scale **measures 3 types of data**, including **body fat**, **muscle mass** and **body mass index** (BMI), giving you a more complete picture of your health. With **a reading accuracy of 50g**, every change in your body is accurately recorded and tracked, allowing you to better manage your physical condition.

Bluetooth 5.4 connectivity

With **Bluetooth 5.4**, the Xiaomi Smart Scale S200 connects to your smartphone or tablet, allowing you to easily transfer data to the **Mi Fit** app. You can easily check your results on the screen of your mobile device, and the app allows you to **monitor** your progress in the long term. In addition, the ability to sync in real time allows you to accurately analyze your results and adjust your training or diet plan.

Body Balance Monitoring Function

The Xiaomi Smart Scale S200 not only allows you to measure your weight, but also to **assess your body balance**. This function is extremely helpful in diagnosing posture, stability and coordination. Regular monitoring of this function can help **prevent health problems** related to poor posture or imbalance.

Support for up to 16 Users

With **support for up to 16 users**, the Xiaomi Smart Scale S200 is perfect for the whole family. The scale will automatically recognize the people using the device, allowing you to personalize the results and track the progress of each user. It's an ideal option if you want to monitor body composition changes in several family members or friends
