Price: **439.90 zł** gross / 357.64 zł net

Manufacturer: XIAOMI

Referention number: DNXGGJQQFRMMMP

Product features

Height	500 mm
LED indicators	Yes
Heating capacity	2000 W
Width	184 mm
Depth	184 mm
Anti-tilt protection	Yes
Thermostat control type	Digital
Handle(s)	Yes
Works with the Google Assistant	Yes
Adjustable thermostat	Yes
Summer ventilation	Yes
Smartphone/tablet remote support	Yes
IFU / User manual	Yes
Voice control	Yes
Timer duration	Yes
Quick heating	Yes
Indication light	Yes
Child lock	Yes
Temperature (min)	22 °C
Overheat protection	Yes
Wi-Fi	Yes
Control type	Buttons

AC input frequency	50 Hz
AC input voltage	220 V
Timer duration (maximum)	8 h
Heating power (min)	1400 W
Temperature (max)	28 °C
Heating element type	Ceramic
Fan noise level (max)	42 decibel
Placement options	Floor
Suitable for	Indoor
Product colour	White
Auto oscillating	Yes
Oscillation range	70 °
Type	Fan electric space heater
Product weight	2200 g

Full product description

Xiaomi Smart Tower Heater Lite EU column heater

The **Xiaomi Smart Tower Heater Lite** features a 2000W PTC ceramic heating element that heats up instantly when turned on. Intelligent temperature control keeps it between 22-28°C, and an axial fan envelops you in warmth with a 70° wide-angle front airflow.

Maintains a comfortable temperature at all times

NTC temperature sensor and built-in thermostat automatically reduces energy consumption as target temperature is approached. Maintains heat while saving energy.

Four modes for optimum comfort

The column heater has four different modes: constant temperature mode is suitable for heating large spaces, hot mode is ideal for cold weather, warm mode for cooler weather, and natural mode suitable for increasing airflow in a room.

Intelligent control

Control the **Xiaomi Smart Tower Heater Lite** remotely with voice commands or a swipe of your smartphone. Using the Mi Home/Xiaomi Home app, set the desired temperature and time, and feel the heat the moment you walk through the door.

Compact, lightweight and easy to carry

The compact design takes up very little space. The column heater is lightweight and easy to carry thanks to a recessed handle on the back that makes lifting and carrying the unit a breeze.

Low noise level

The gentle sound of flowing air acts like white noise, helping immerse you in reading.
