Information:

Xiaomi Sound Outdoor is a compact, portable 30 W Bluetooth speaker that delivers dynamic, clear sound with stronger bass both at home and outdoors. Thanks to Bluetooth 5.4, it connects quickly and stably, while the battery provides up to 12 hours of playback. The IP67-rated housing protects against dust and water, so the speaker is ideal for use on a terrace, while camping, or by the water. The TWS function allows two speakers to be paired for a wider stereo soundstage, and the lightweight 597 g design, strap and non-slip base make it easy to carry and position. The speaker also supports hands-free calls.

Product features

Product type	Stereo portable speaker
Height	66 mm
Cartridge type	Built-in battery
Battery recharge time	2.5 h
Width	196.6 mm
Depth	68 mm
Connectivity technology	Wired & Wireless
Battery life (max)	12 h
Cables included	USB
Woofer	Yes
Battery capacity	2600 mAh
Battery voltage	7.2 V
Bluetooth range	25 m
IFU / User manual	Yes
Protection features	Waterproof

Number of speakers	2
USB Type-C charging port	Yes
USB Type-C required charging power (max)	15
International Protection (IP) code	IP67
Bluetooth version	5.4
Bluetooth	Yes
Adjustable volume	Buttons
Battery technology	Lithium-Ion (Li-Ion)
Hook	Yes
Product colour	Green
Frequency range	60 Hz
RMS rated power	30 W
True Wireless Stereo (TWS) technology	Yes
Built-in display	No
Product weight	597 g

Full product description

Powerful sound in a compact body

Xiaomi Sound Outdoor is a portable Bluetooth speaker for music at home and outdoors. It combines **30 W of power** with realistic sound, so it works well for gatherings, trips and everyday listening. Its compact form makes it easy to carry, and the design has been created with convenient use in different conditions in mind.

Key benefits

- **30 W power** – the speaker delivers clear, dynamic sound even in a larger room or outdoors.
- **Bluetooth 5.4** – stable connection and smoother pairing with a phone, tablet or laptop.
- **Up to 12 hours of playtime** – longer music listening without reaching for the charger too often.
- **IP67** – dust and water resistance that increases freedom of use outdoors.
- **True Wireless Stereo** – connecting two speakers provides better channel separation and a wider soundstage.
- **597 g** – lightweight design makes it easy to carry with one hand.

Sound with greater depth

The speaker uses a large mesh surface and two passive bass radiators to achieve fuller low tones and a more natural balance. This design works well with electronic music, pop and energetic tracks, where clear percussion and stronger bass matter. The sound remains clear even at lower volume.

Stable Bluetooth 5.4 connection

Bluetooth 5.4 support means faster and more stable pairing with the audio source. In practice, this reduces playback interruptions and shortens setup time. This is important when the speaker is often moved around and connected to different devices.

Built for outdoor use

The **IP67** protection rating shields the speaker from dust and brief contact with water, so it can be taken more safely to a patio, campsite or lakeside. The reinforced design adds peace of mind when using it away from home. It is a practical solution for people who do not want to limit music listening to one place.

Up to 12 hours of playback

The built-in battery provides **up to 12 hours of playback**, which is enough for a long day away from home or several gatherings in a row. Charging via **USB-C 15 W** reduces the time needed to replenish power to around 2.5 hours. As a result, the speaker gets back to work faster and does not require frequent battery checks.

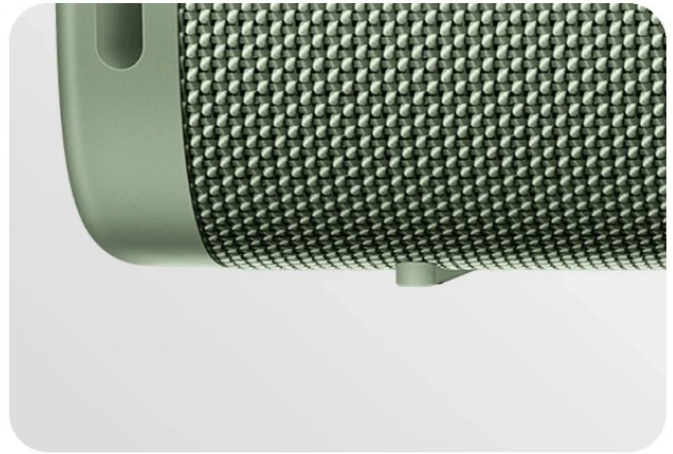

True stereo without cables

The **True Wireless Stereo** function allows two identical speakers to be paired into left and right channels. Such a setup provides a wider soundstage and a more spacious sound, especially for music and films. In addition, pairing multiple speakers is possible, which is useful for larger gatherings and parties.

Convenient transport and placement

The rounded shape, **rubber strap** and **non-slip pad** make it easier to carry and keep the speaker stable on a table, shelf or outdoors. The design allows both horizontal and vertical placement, so it is easier to adapt to the space. The black finish with an orange accent gives it a clear, tidy look without unnecessary additions.

Hands-free mode

Hands-free mode increases convenience during calls, as you can answer with one touch and talk without holding your smartphone to your ear. It is a practical solution at home, while working and outdoors. The speaker combines music playback with everyday call handling, so it takes up less space than several separate devices.

Technical specifications

- **Name:** Xiaomi Sound Outdoor
- **Model:** MDZ-38-DB
- **Colour:** Black/Blue/Red/Gold/Green
- **Product dimensions:** 196.6 × 68 × 66 mm
- **Net weight:** Approx. 597 g
- **Rated output power:** 1 × 20 W, 1 × 10 W
- **Frequency range:** 60 Hz to 20 KHz
- **Signal-to-noise ratio:** ≥80 dB
- **Battery:** Lithium-ion, 7.2 V, 2600 mAh
- **Battery charging:** 5 V 3 A, 2.5 hours
- **Bluetooth version:** 5.4
- **Signal range:** 25 m
- **Playback time:** Approx. 12 hours (at 50% volume)
- **Water resistance:** IP67
- **Stereo pairing (TWS):** Yes
- **Multi-speaker pairing:** Yes, ≤100 devices
- **Microphone:** Yes
- **Package contents:**
 - Xiaomi Sound Outdoor x1
 - Charging cable x1
 - User manual x1
