Full product description

Pink courier foil packs that impress with their aesthetics and functionality

If you want safe, stylish and practical shipping, **Extralink courier foil packs pink B4 260x350 50 pcs** are the perfect choice. Their pink color adds a unique look to your shipments, while providing the highest level of protection for the contents. **Choose a product** that combines durability, ease of use and modern design to ensure that every package reaches its recipient intact.

Easy and fast packaging

Pink courier foil envelopes are equipped with a **self-adhesive strip**, which makes it take only a few seconds to close. You do not need additional tools such as adhesive tape to secure the envelope firmly. This makes the whole packing process faster and more efficient.

Shipment security

Each courier foil pack has **adhesive strips** that provide a reliable seal. The opaque film effectively **protects the contents of the shipment** from unauthorized access and prying eyes. You can be sure that your shipment will reach the recipient in perfect condition.

Resilience and robustness

The foil packs are made of high-quality **LDPE film**, which provides resistance to moisture, tearing and bending. The thickness of 55 microns guarantees the protection of the contents even in harsh shipping conditions. It's a great solution to **protect your package** from damage during shipping.

Eco-friendly alternative

The pink courier foil packs are made **from 50% recycled materials**, making them more environmentally friendly. Once used, they can be recycled, minimizing the negative impact on the planet. Choose eco-friendly plastic envelopes to support sustainable logistics solutions.
