Full product description

Your entertainment in 4K

The **Xiaomi TV Stick 4K (2nd Gen)** media player is a compact device that turns any TV into a home entertainment center. It allows you to watch content in **4K Ultra HD** resolution with support for **Dolby Vision** and **HDR10**, which make the image vivid and full of detail. With **Google TV**, you gain access to a world of movies, series and games from the most popular streaming platforms. It's **a simple and intuitive** way to upgrade any TV.

Key advantages of Xiaomi TV Stick 4K media player (2nd gen)

- **High picture quality:** Watch **4K Ultra HD** content with **Dolby Vision** and **HDR10** for unprecedented color depth and detail.
- **Immersive sound:** **Dolby Audio** and **DTS-HD** take care of the cinematic sound experience that fills the room.
- **Easy to use:** **Google Assistant remote** control enables voice search and smart home control.
- **Multifunctionality:** The **Google TV** system provides access to thousands of apps from the Google Play store.
- **Full mobility:** Its compact size means you can take it with you and use it anywhere with access to a TV.

A picture full of details

Discover movies and series in a completely different quality. Support for **4K Ultra HD** technology makes the picture sharp and realistic. In addition, support for advanced **HDR10** and **Dolby Vision** standards takes care of faithful color reproduction, deep blacks and high contrast, which contributes to the experience of watching any scene.

Cinema sound at home

The device offers support for **Dolby Audio** and **DTS-HD**, which translates into an immersive and multidimensional sound experience. Enjoy clear sound, rich in detail, that surrounds you from all sides, enriching any movie screening or game.

The center of your entertainment

At the heart of the device is the **Google TV** system, which provides access to a huge library of content. With the Google Play store, you can easily download your favorite apps, such as Netflix, YouTube, Disney and Amazon Prime Video. The system helps personalize recommendations, making it easy to discover new movies and programs tailored to your preferences.

Performance without compromise

Equipped with a quad-core processor and powerful GPU, the **Xiaomi TV Stick 4K** enables smooth playback of high-definition content without stuttering. The large RAM ensures comfortable switching between applications, while the internal memory offers space for all the necessary applications and games.

Connectivity and control

The device features **dual-band Wi-Fi (2.4GHz/5GHz)**, which takes care of a stable and fast connection to the Internet. Bluetooth connectivity allows pairing with other accessories, such as wireless headphones or speakers. The included remote control allows **voice control** with the built-in Google Assistant, making it much easier to search for content.

Convenience and mobility

The compact size makes it easy to hide the player behind your TV. It's ideal if you want to take your entertainment with you on the go. Simply plug the device into the HDMI port and power it up to enjoy access to your favorite streaming platforms anywhere in just a few moments.

Xiaomi TV Stick 4K (2nd gen) is the perfect solution for:

- Individuals who want to extend the capabilities of their TV that is not a Smart TV.
- Users looking for a compact and easy-to-use streaming device.
- Lovers of movies and TV series in the highest picture and sound quality.
- Travelers who want to access their subscriptions anywhere.
- Fans of the Xiaomi ecosystem.
