Product features

Turbo button	Yes
Power source	Battery
Product type	Electric broom
Height	226 mm
Battery recharge time	5 h
Width	340 mm
Depth	124 mm
Cleaning surfaces	Carpet
Cleaning type	Dry
Runtime	60 min
Maximum input power	400 W
Battery voltage	25.2 V
Washable filter	Yes
Energy saving	Yes
Number of battery cells	7
Suction power	25000 Pa
Display type	LED
Product colour	Grey
Dirt separating method	Cyclonic
Vacuum air filtering	HEPA
Built-in display	Yes
Dust container type	Bagless

Full product description

XIAOMI VACUUM CLEANER G20 MAX - your reliable support in cleaning!

Tired of fighting against the omnipresent dust and dirt? Xiaomi Vacuum Cleaner G20 Max is a vacuum cleaner that will make cleaning simpler and more efficient. With modern technology and ergonomic design, this vacuum cleaner will become an indispensable part of your home.

Powerful suction for effective dirt removal

Equipped with a brushless motor, the Xiaomi Vacuum Cleaner G20 Max **provides suction power of up to 25,000 Pa**. Such suction power makes it easy to remove even the finest dust and dirt from various surfaces. The vacuum cleaner can handle a variety of surfaces, from hard floors to carpets, without having to replace the brush head.

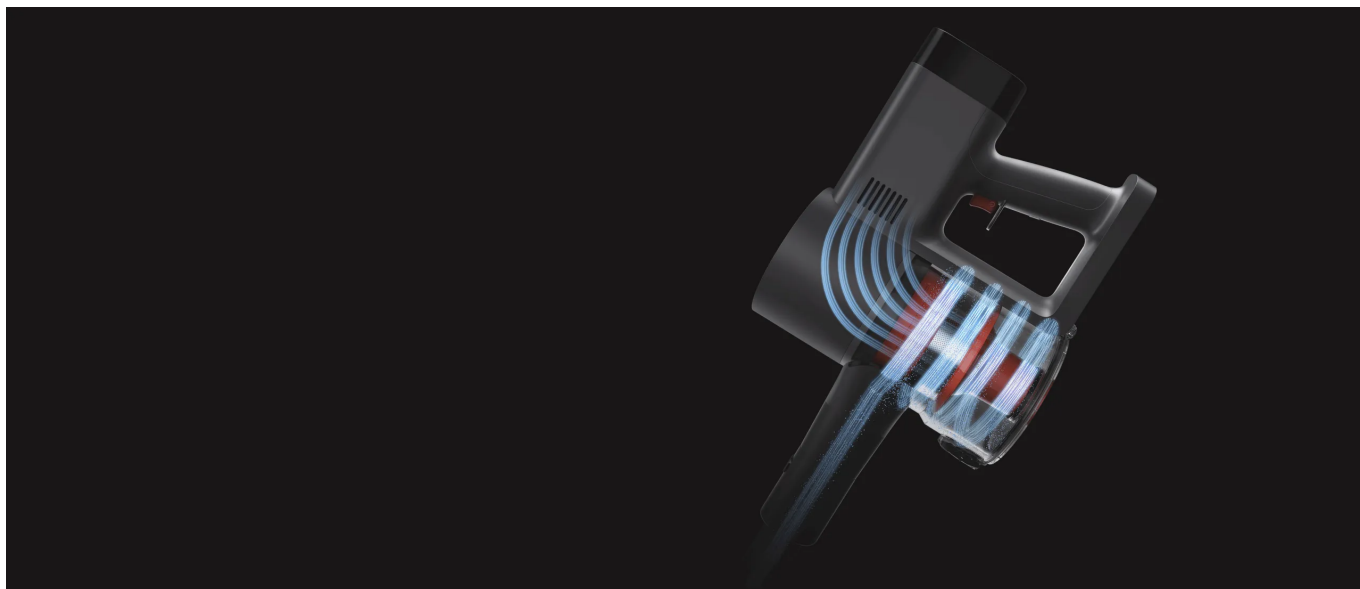

Multifunctional brush with LED lighting

The device **has an electric brush with built-in LED lights**, making it easy to clean in hard-to-reach places. Now you can check and thoroughly clean the nooks and crannies under furniture or in the corners of rooms. The brush effectively removes dirt and dust for a spotless clean.

Long working time and capacious dust container

Thanks to its built-in rechargeable battery, the vacuum cleaner runs for up to **45 minutes without a break**. This is long enough to clean the entire apartment without having to recharge. The capacity of the dust container is about 0.6L, which minimizes the need for frequent emptying during cleaning.

Advanced filtration system for cleaner air

Five-stage precision filtration effectively traps fine dust particles, generating fresher air and preventing secondary pollution. This not only keeps **your** surfaces clean, but also the **air quality in your home**.
