Dimmable	Yes
Bulb power	0.087 W
Light colour type	Multi
Total power	7.5 W
Product colour	White
Mounting hardware type	Adhesive tape

Type	Universal strip light
Designation	Indoor

Full product description

Xiaomi LED Yeelight Lightstrip Plus

Xiaomi Yeelight Lightstrip is capable of providing adjustable illumination in multiple parameters. It is **easy to mount** anywhere in your home with double-sided tape, and its flexible structure allows it to **take the shape of any object** in the interior and provide a whole new experience in your home. And by using additional meter extensions, the strip can be extended **up to 10 meters** if your interior requires it.

Intelligent control

Xiaomi Yeelight is capable of functioning in a **smart home system**. This allows it to be controlled remotely using **voice assistant** commands **or an app**. It can also work as part of **MiHome** scenarios, turning it on and off depending on signals from sensors or alarms. However, conventional control is also supported, a **remote control** is initially included.
