Full product description

The **Xiaomi ZMI 10** Portable Battery comes with a USB-C cable that can be used to charge your Xiaomi Air laptop, as well as your MacBook Pro with USB-C port and other MacBook series devices.

The original USB solution

Xiaomi ZMI 10 Portable QB820 Battery can be a self-powered USB hub to help you solve this problem. It supports two **USB-C to USB-C** and **USB-C to USB-A** modes, suitable for the vast majority of computers. You can connect not only computer mouse, keyboard, but also USB drives for reading documents to the two full-fledged self-powered ports with **480Mbps** throughput.

Minimum time required for a full charge

The **ZMI 10 Portable Battery** supports the latest USB PD 2.0(**Power Delivery 2.0**) protocol, using a USB-C port that can deliver up to **45W** of power output, fully charging your device in just **3.8 hours**.

Double quick charge

The **Xiaomi ZMI 10** portable battery features dual fast charging which, no matter the input or output port, always provides fast charging to meet your high performance requirements.

High quality chip

The advanced microchip of **Xiaomi ZMI Powerpack 20000** is not only safe, but also has even higher conversion efficiency, stable discharge voltage and is equipped with high-precision resistive capacitive sensor. It not only has **9 degrees of circuit protection**, but also has comprehensive charge/discharge performance improvement.
