operation

Extending the
life of the device

Longer operating time

The **14.4V 2600mAh battery** gives your vacuum cleaner longer autonomy for more thorough and longer cleaning. Thanks to the increased capacity, your vacuum cleaner will run much longer on a single charge. This is ideal for those who need a vacuum cleaner for large areas.

High quality workmanship

The **14.4V 2600mAh battery** is made of high-quality materials, ensuring **durability and performance** for a long time. Thanks to modern battery technology, you are assured that the device will work stably and safely throughout its lifetime. It's a solution that provides certainty and safety of operation.

Safety and reliability

A modern energy management system (BMS) protects the device against overheating, overload, and short circuits.

A few reasons to replace the battery

Greater efficiency - The new battery restores the vacuum cleaner's full power, resulting in better cleaning in less time.

Extended device life - Replacing the battery prevents damage from excessive wear and tear on the old battery, extending the life of the vacuum cleaner.

Greater autonomy - The new battery provides longer vacuum cleaner run time, allowing you to clean larger areas without having to take a break to recharge.

Easy replacement - The battery is easy to replace, allowing you to quickly restore your vacuum cleaner to full performance, without the need for complicated repairs.
