Referention number: DNXGGONSIRMNIH

Information:

BeBird Q3 is a modern device for safe and precise ear hygiene at home. Equipped with a 5 MP camera and an intelligent gyroscope, it provides a clear, stable image and full control during cleaning. The compact 3.5 mm lens minimises the risk of irritation, while durable, skin-friendly materials increase user comfort. The water-resistant and dust-resistant design makes it easy to maintain hygiene, and the 130 mAh battery offers up to 45 minutes of operation after just 45 minutes of charging. It is a convenient, portable solution for everyday care and travel.

Full product description

Keep your ears healthy and comfortable with the BeBird Q3

BeBird Q3 is a device designed to provide effective and safe ear hygiene at home. Thanks to its advanced technology, compact design and high quality workmanship, daily care becomes simpler and more comfortable. Opt for a solution that allows you to take care of your health in a precise and convenient way.

Why is the BeBird Q3 a great choice?

- **Precision and safety** - a high-resolution camera and intelligent gyroscope ensure full control and gentleness during the procedure.
- **Hygienic** design - waterproof and dustproof design protects the device from contaminants, and skin-friendly materials enhance comfort.
- **Mobility and convenience** - the compact design makes the device easy to fit into a cosmetic bag or luggage.
- **Performance** - fast charging and long run time allow you to use the device whenever you need it.

Clear images thanks to high-resolution camera

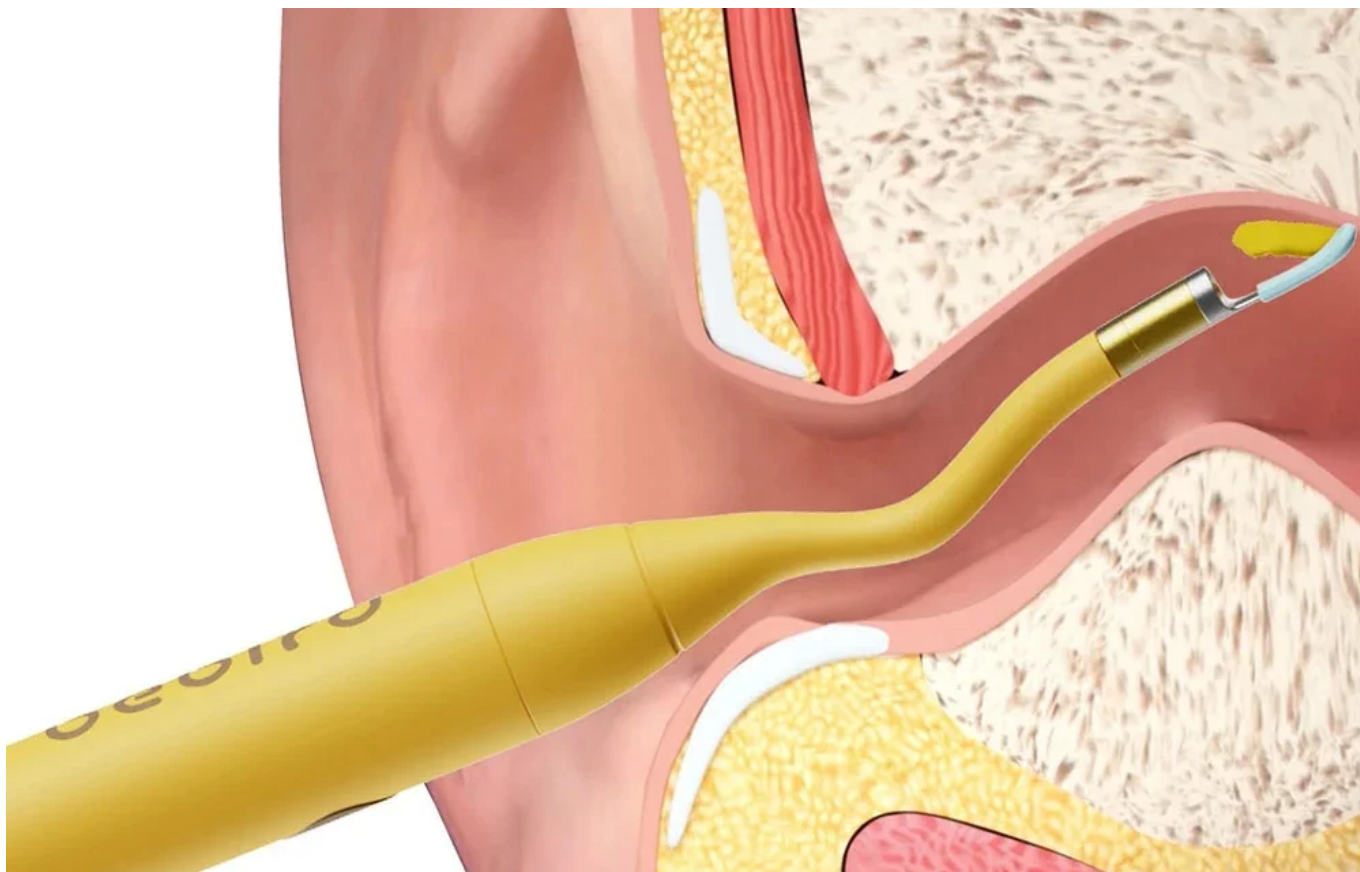

The BeBird Q3 is equipped with a 5.0 megapixel camera that provides exceptional precision during ear care. Thanks to its high resolution, the device enables accurate observation of the inside of the ear canal, which significantly increases the effectiveness and safety of the procedure. Additional features, such as resistance to water, dust and fogging, ensure a long life of the camera and hygienic conditions of use.

Wysokiej jakości obraz gwarantuje precyzję w czyszczeniu kanału słuchowego

Small but effective - 3.5 mm lens

The compact 3.5mm diameter lens is designed for gentle and precise ear cleaning. The small size minimizes the risk of irritation, and the ergonomic design allows the device to maneuver freely. It's ideal for those seeking comfort during daily grooming.

Stable image thanks to intelligent gyroscope

The use of an intelligent gyroscope allows stable monitoring of the cleaning process regardless of the angle of the device. This means full control and precision in any situation, which is especially important when performing delicate hygiene procedures. The steady image eliminates unforeseen changes in perspective, increasing user safety.

Szybkie pozycjonowanie, stabilne i bez odchyień obrazu podczas przeglądania ucha

Inteligentny żyroskop, umożliwia zobaczenie każdego zakątka ucha

Safe and durable materials

The device is made of high-quality materials, such as stainless steel, PC and food-grade silicone, which are skin-friendly and ensure durability. This design guarantees long use, while protecting against possible irritation. The ergonomic design makes the BeBird Q3 convenient to use and easy to store.
