Full product description

Powerful chipsets with Android 9.0

New powerful chipsets bring stability as well as durability to the device to optimize product performance and longevity. With dual system support, the **MP54** provides a safe and stable operating environment.

Easy to use

The **Yealink MP54** is designed for office workers. It features 4-inch touchscreen hard-key buttons with a dedicated Teams button for intuitive call control.

Professional and sophisticated audio technology

The **MP54** combines professional hardware and software technology to deliver crystal clear voice communications. With Yealink Optima HD voice, Noise Proof Technology, and full-duplex hands-free speakerphone hardware with AEC and HAC handset, the **MP54** delivers a superior audio experience on every call.

Simplifying implementation and management

The **MP54** offers deployment flexibility with multiple choices of deployment tools from Microsoft, Yealink and Unify square off, as well as auto-provision, making it easy to deploy, administer, upgrade and maintain.
