Full product description

Yealink SIP-T29P is a basic IP Phone with 16 lines and HD-voice

Yealink SIP-T29P is a **16-account** enterprise phone with **Gigabit Ethernet** switch with Power over **Ethernet** (PoE) support, **large display** and Titan voice engine from Texas Instruments. The **Yealink SIP-T29P** will provide enterprise users with additional leverage to manage human resources and run their business more efficiently.

HD Audio and improved call management

"**Yealink HD Voice**" is a combination of software and hardware design, and the introduction of wideband technology to **maximize acoustic performance**. Combined with advanced audio clarity technology such as full duplex, ECHA elimination, adaptive jitter buffer, etc., SIP-T31P provides clearer and more **realistic voice communication**.

The SIP-T31P supports extensive productivity features such as XML browser, call parking, call capture, **BLF**, call forwarding, five-way conferencing, making it **an ideal productivity tool** for today's busy small and large offices.
