Speakerphone	Yes

Full product description

Performance and convenience in one device

The Yealink SIP-T34W is a **wireless IP phone** that combines **2.4G/5G Wi-Fi band support**, **PoE** power and a **large 320x240 color LCD display**. Thanks to **the advanced HD technology**, calls are clear and the working comfort is significantly improved.

Wi-Fi connection without cables

With **built-in 2.4G/5G Wi-Fi**, the Yealink SIP-T34W eliminates the need for wired network connections. This enables **seamless** network access, enhancing mobility in the office. The **dual-band Wi-Fi** capability provides better stability and reduced interference in crowded networks.

Efficiency and convenience of operation

The phone features a **320x240 color LCD display** that improves readability of menus and contacts. An intuitive interface makes it easy to **manage calls**, and an **adjustable stand** allows you to **adjust the angle of the screen** to suit your preferences. In addition, **the wall-mounting capability** makes it possible to place the device in a convenient location.

Advanced HD audio quality

The **Yealink SIP-T34W** phone uses **HD Voice** technology, which provides **high quality sound** and a more comfortable conversation experience. With **support for USB headsets and Bluetooth**, users are **free to make calls** even when they are not at their desks. In addition, **EHS support** allows users to connect **wireless headsets**, further enhancing convenience.

Flexible connectivity and PoE

The phone supports **up to 4 SIP accounts**, allowing the company to manage calls efficiently. A **USB 2.0 port** allows you to connect additional accessories, such as **Bluetooth headphones** or **storage**. With PoE support, the phone can be powered directly via Ethernet, eliminating the need for additional power supplies.
