Full product description

Yealink SIP-T48S

The **SIP-T48S IP phone** is a dynamic business communication solution for executives and professionals. The **SIP-T48S** is also with Yealink technology

Optima HD Audio

With the help of **Yealink Optima HD audio** technologies, industry-leading acoustic clarity and the newly added Opus support to a wide list of audio codecs, the **Yealink T48S** guarantees a realistic collaboration experience. With Opus support, the **Yealink T48S** series delivers better audio quality in both high-bandwidth and poor network conditions, compared to other broadband or narrowband codecs.

Outstanding user experience

The **Yealink T48S** provides excellent stability and performance with the latest advanced components. The phones feature an optimized interface for a smartphone-like user experience. Its rich one-touch softkeys allow customization, bringing added convenience and increased productivity.

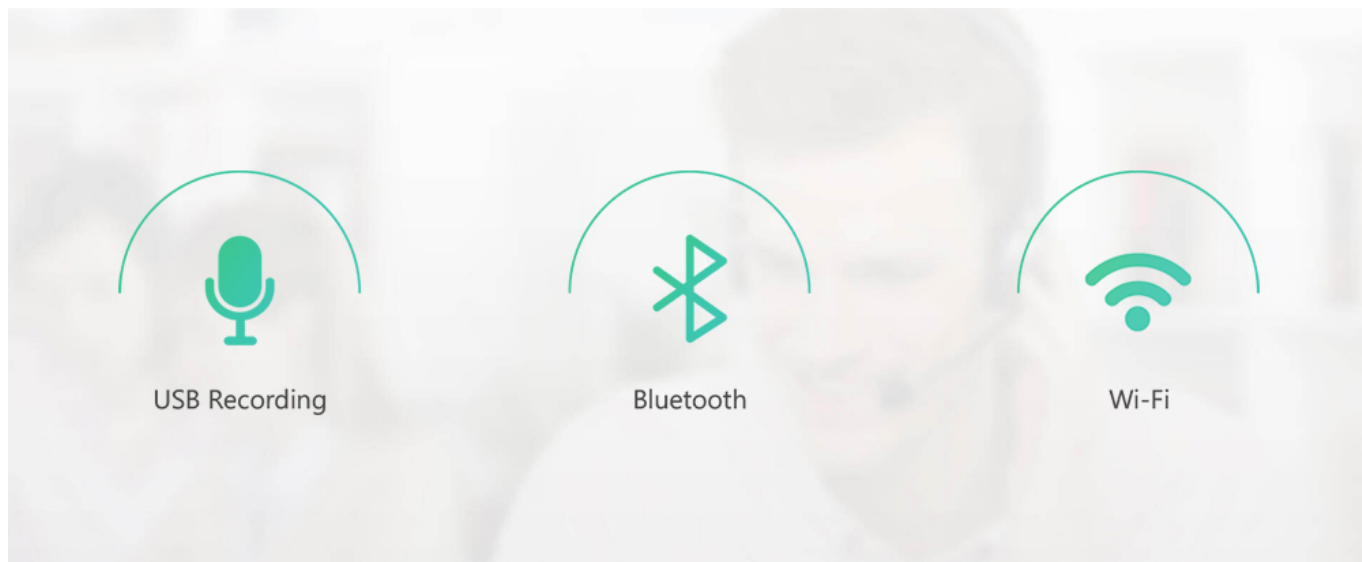

Elegant industrial design

The state-of-the-art design of the **Yealink T4S series** encompasses telephony excellence as well as elegant design. The use of top-quality materials demonstrates the excellence of workmanship.

Added comfort and flexibility

The entire T4S series supports enhanced features such as USB call recording, Bluetooth and Wi-Fi connectivity, providing greater flexibility and functionality.

Seamless configuration and updating

The **Yealink T4S** supports efficient provisioning and seamless mass deployment with the free **Yealink Redirection and Provisioning Service(RPS)**. What's more, the **T4S** has a unified firmware and auto-p template that applies to all phone models (T41S, T42S, T46S and T48S), saving even more time and IT costs for businesses.
