Full product description

Yealink SIP-T58A phone

The **Yealink SIP-T58A** includes the latest version of Yealink Optimal HD Voice technology, including **Yealink Noise Proof Technology**, and now supports the **Opus codec**, which helps maximize the acoustic performance of the phone's handset, headset and especially the speaker. What's more, you can use the **T58A** with Yealink VC Desktop together to share content from your laptop.

Android 5.1.1

Based on **Android 5.1.1**, the **Yealink SIP-T58A** features a built-in browser, email, calendar and more. Administrators can easily install additional Android apps to improve collaboration and productivity. Meanwhile, **Yealink** 's open **SDK** allows the phone to be deeply integrated with third-party apps, providing richer phone features and giving a better user experience.

Rich interface

The **Yealink SIP-T58A** features Bluetooth 4.2 for pairing with headsets and phones. It also includes dual-port Gigabit Ethernet with PoE, as well as built-in 2.4G/5G Wi-Fi. A USB 2.0 port allows media and storage connection via USB flash drive and direct wired/wireless USB headset connection. The **SIP-T58A** can also be paired with up to 3 Yealink color screen expansion modules.

Efficient delivery and management

The **Yealink SIP-T58A** supports Yealink's powerful Auto-Provisioning mechanism, including phone deployment and application installation. Administrators can benefit from centralized deployment, management, upgrades and uninstallation to ensure application standardization.
