Full product description

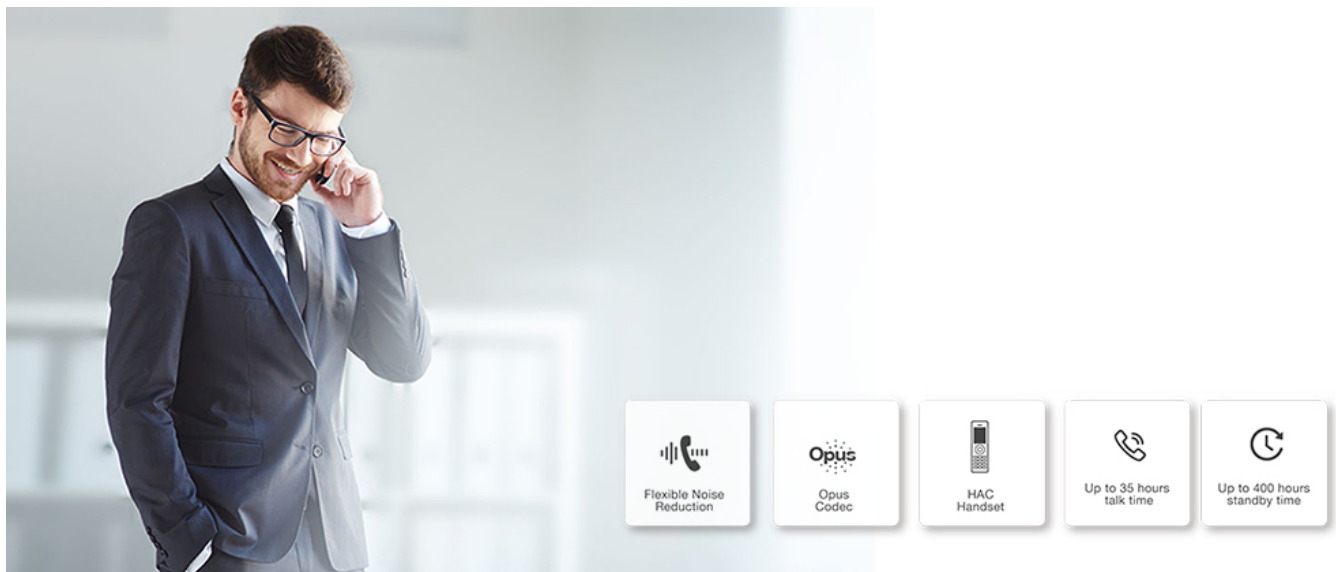

HD audio

Combining high-quality devices and an advanced acoustic algorithm, the **Yealink W73H** realizes audio delivery with magnified volume and reduced noise, making every call feature a clear and crisp voice. With enhanced performance in signal processing, the new handset also provides a more stable and consistent mobile communication experience.

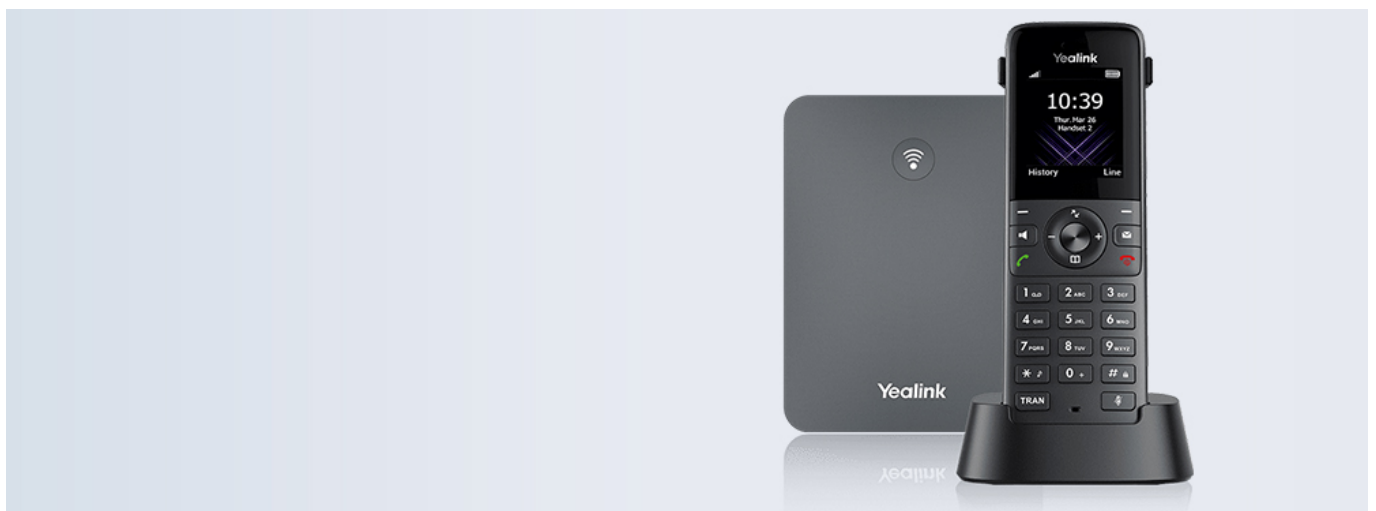

Cleanliness and stability

The **Yealink W73P** includes upgraded hardware, acoustic algorithm, computing capacity and signal strength, providing flexible workers with HD audio. For workers in complex environments, the system also provides noise-free calls with higher volume.

Compatibility

The **Yealink W73H** is compatible with **single cell** (W60B/W70B) as well as **multi cell**(W80B/W90B) DECT bases, offering scalable DECT solutions to meet diverse needs.

Yealink W73H DECT

- New design of appearance and intuitive UI
- Clear and stable voice communication experience
- Optimized response speed and battery life
- Seamless compatibility with the DECT base
