Full product description

Yealink YHS33 single-ear headset

The **Yealink YHS33** is an over-the-head headset that is designed for office, SOHO or call center workers. It is compatible with the full range of **Yealink enterprise** IP phones. Combined with wideband audio technology, it provides richer, clearer conversations and reduces listening fatigue. What's more, the **noise-canceling microphone** filters out background noise for superior speech transmission. A quick-disconnect feature provides convenience, allowing users to quickly leave the device for a short time or switch to other audio equipment.

Main features

- Wideband sound for more natural sound and clearer conversations
- High-quality sound ensures high-quality communication with the customer
- Ultra microphone noise reduction
- Ergonomic design for all-day comfort
- 330-degree rotatable microphone boom
- Lightweight and soft ear cushions are friendly to your ears
- All-day, comfortable design for heavy use
- Plug and play
