Full product description

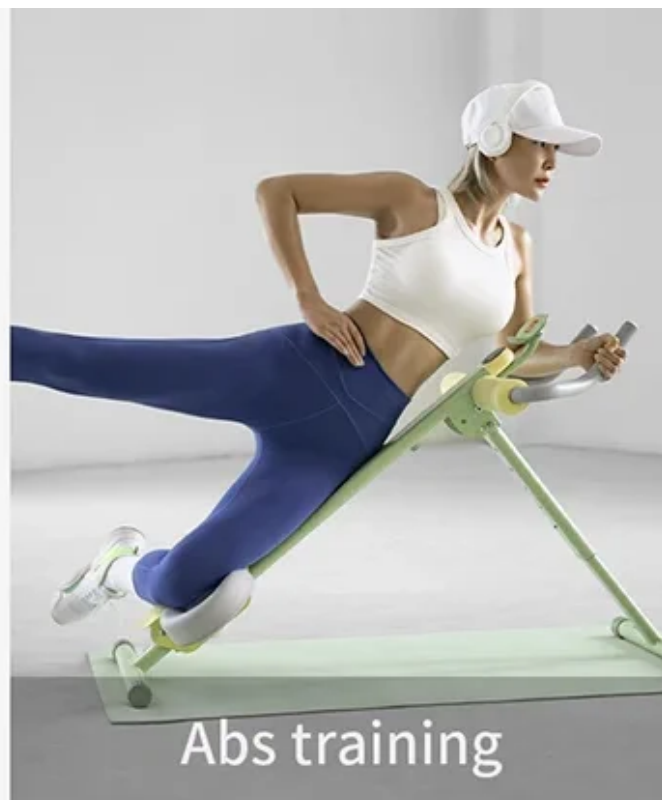

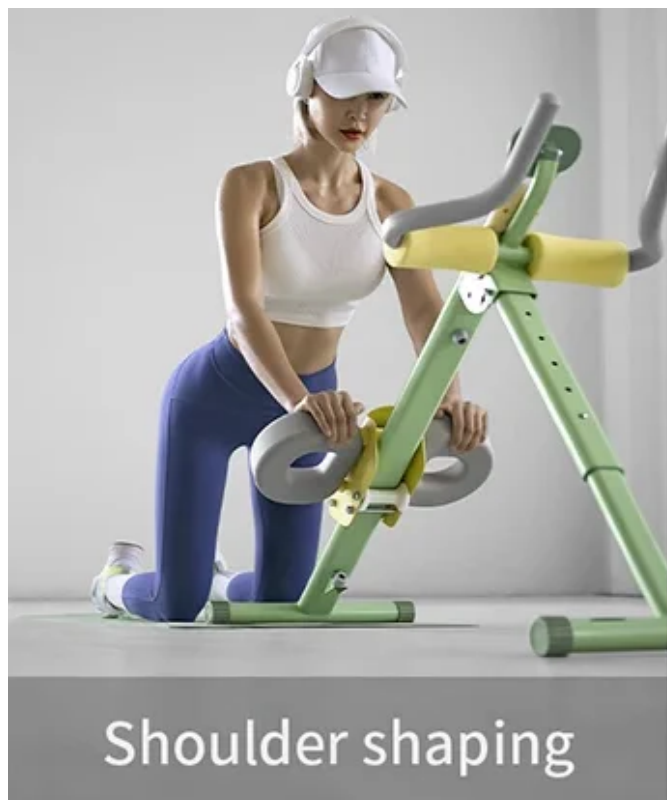

Yesoul WT50 abdominal muscle exercise machine

The Yesoul WT50 Abdominal Muscle Exercise Machine can help you burn calories and build a great physique by targeting the upper, middle, lower abdomen and obliques, as well as toning the inner thighs and hips. Ideal for both men and women, it is an excellent choice for training at home or at the gym. This home exercise equipment is designed with a unique ergonomic sliding curve, made with a solid, thickened steel frame for high durability and stability.

Professional abdominal and trunk exercise machine

The specially designed steel construction engages more muscles, taking abdominal and torso training to the next level.

Stability and durability

The fitness machine is made of sturdy steel frame, high-quality knee cushion and foam-covered handles, provides high durability and comfortable workout. The maximum load capacity is up to 110 kg.

Adjustable height levels

Different levels of workout height can be adjusted to suit different needs, targeting thigh, chest and abdominal muscles, maximizing workout performance.

LCD display

The smart LCD workout monitor shows real-time calories burned, workout time and repetitions.

Easy to assemble and fold

Clear and short instructions make assembly much easier. It can also be folded when not in use. It is suitable not only for the gym, but can also be used at home, office.
