Full product description

Discover the future of fitness with Yesoul E80EV

Feel the difference with the Yesoul E80EV elliptical trainer - a device that combines innovation, comfort and style. Thanks to silent magnetic control technology, you can train at home without disturbing others, while the ergonomic design ensures ideal posture and exercise efficiency. Integration with the E-health app allows you to track your progress and vitals, and additional online fitness sessions will keep you motivated at the highest level. With Yesoul E80EV, every exercise becomes a unique experience. Choose it to transform your daily exercise routine into an exciting journey toward better health and form.

Stay up to date and track your progress with Yesoul E80EV

The Yesoul E80EV elliptical trainer offers seamless integration with your smartphone via the E-health app. This advanced feature allows you to effortlessly track your workout progress and vital signs. Additionally, it enriches your workout experience with access to online fitness sessions, keeping you motivated and engaged.

Quiet and efficient - revolutionary silent magnetic control

Experience a new era of tranquility while working out with the Yesoul E80EV. Its next-generation resistance system with magnetic control operates quietly, ensuring that you can exercise without disturbing your household. The use of emergency stop switches and a design that minimizes friction allows you to create a tranquil workout environment, ideal for home use.

Ergonomic design - optimal posture and comfort

The Yesoul E80EV is ergonomically designed to ensure ideal posture during workouts. Its design, featuring a front drive wheel, minimizes shock while maximizing exercise efficiency. The elliptical design promotes straight shoulders and back, effectively engaging major muscles while reducing excessive sweating.

Advanced suspension - innovative Carwheel technology

With independent suspension technology, the Yesoul E80EV offers quadruple shock absorption and knee protection. Maximum cushioning is achieved through the independent suspension, and belt drive systems connect the pedals to the entire machine, effectively absorbing shocks and providing a smoother ride.

Excellent finish - superb craftsmanship and details

This elliptical trainer boasts an exquisite finish, treated with five layers of electrostatic spraying and an advanced double polishing process. The backlit LED display, with a user-friendly dial for adjusting the resistance level and sport mode, adds a sophisticated and futuristic look.

Convenient solutions - user-friendly and versatile

The Yesoul E80EV isn't just about performance; it's also about convenience. It has transport wheels for easy movement, comfortable foam handles, dual armrests and aluminum bars. These thoughtful details enhance the workout experience, making it a pleasure to use.

Futuristic and effective training

The Yesoul E80EV elliptical trainer is a groundbreaking piece of home exercise equipment. The smooth and comfortable workout combined with its futuristic design makes it an ideal choice for those who want to improve their fitness routine. The innovative magnetic resistance control adjusts the intensity of the exercise to suit the user's individual needs, shaping arms, waist and legs and promoting a healthy heart rate. Plus, its mobility at home adds to its overall appeal.
