Product weight	36000 g

Full product description

Yesoul PH5 treadmill: compact, interactive and comfortable

The Yesoul PH5 electric treadmill is the perfect combination of compact design, smart connectivity and convenient use, ideal for modern living spaces. Its foldable nature and transport wheels make it easy to store and carry, while connectivity with apps such as Yesoul Lite and Zwift enhances your workout experience. With a spacious and quiet running belt, adjustable speed settings and an integrated safety system, it provides a superior exercise experience. Combined with compatibility with interactive apps, the Yesoul PH5 is an excellent choice for those who want to improve their home fitness routine.

Easy storage and mobility

The Yesoul PH5 treadmill was designed with modern living spaces in mind. Its compact and fully foldable design allows for convenient storage without sacrificing space. Whether you live in a small apartment or a large house, this treadmill will fit perfectly into your life.

Smart connectivity for better workouts

Take your workouts to the next level with the Yesoul PH5. This treadmill integrates with the Yesoul Lite mobile app and Zwift app, offering interactive workout sessions and monitoring capabilities. Stay motivated and track your progress with ease.

Optimized for comfort and safety

Enjoy the spacious 450mm wide running belt that adapts to the runner's natural steps, absorbing shocks and providing a comfortable workout. In addition, the treadmill runs quietly, allowing you to exercise without disturbing others. Safety is a priority with the emergency stop function and safety magnet. The left handle turns the treadmill on and off, while the right handle is used to adjust the speed from 0 to 12 km/h.
