Full product description

Yesoul C1H Smart Spinning Bike: A Revolution in Home Training

The Yesoul C1H smart spinning bike is the perfect combination of advanced technology, sophisticated design and unparalleled functionality that transforms home training into an exciting and effective adventure. Equipped with an interactive app that allows access to professional trainers and a variety of classes, the C1H offers not only the convenience of a workout at home, but also the motivation and support of a traditional gym. Its sturdy construction, magnetic flywheel and 100 levels of speed control provide users with comfort, safety and the ability to customize their workouts. Additional amenities, such as a drink holder and ease of movement, make the Yesoul C1H not only functional, but also a practical choice for anyone looking for an effective and enjoyable way to improve fitness at home.

Advanced Technology for Exceptional Impressions

The Yesoul C1H smart spinning bike redefines home workouts by combining state-of-the-art technology with an intuitive interactive app. It provides an unparalleled, realistic experience, allowing users to track progress, personalize workouts and set challenges for themselves. Compatibility with popular apps such as Zwift, the Kinomap App, and the Nautilus App opens up new opportunities for interaction and motivation.

Sophisticated Design and Reliable Construction

The new Yesoul C1H is a masterpiece of design, combining the best features of Yesoul's previous models, the S3 and M1. Its construction of heavy-duty carbon steel, heavy-duty belts and ultra-smooth bearings, combined with stainless steel flywheels and a sweat-resistant seat, ensures reliability and durability.

Training with the Pros

With the Yesoul Fitness app, users can receive mentoring from professional trainers and participate in classes at any level. The app offers a wide selection of trainers and classes, allowing users to train as if they were in a gym, but in the comfort of their own home.

Innovative Flywheel Technology

Yesoul C1H flywheel made of high-quality aluminum with magnetic technology ensures smooth and quiet operation. The instant stop function with the GEAR/Cadence button increases safety and comfort.

Thoughtful Additions and Convenience

The bike is equipped with a practical beverage holder, making it easy to hydrate during an intense workout. It does not require electric power, which makes it more environmentally friendly and safe to use. Easy movement of the bike thanks to the installed wheels and a comfortable saddle made of high-quality material ensure comfortable use.

Training Adjustment and Personalization

With 100 levels of speed control, the Yesoul C1H allows users to customize their workout to meet each user's individual needs and goals. This gives users full control over intensity and style, making it the ideal workout equipment for anyone, regardless of skill level.
