Price: **39.00 zł** gross / 31.71 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHHONIRMLH

Information:

A two-pack of washable HEPA filters for Dyson V10 and SV12 vacuum cleaners provides convenient, quick, tool-free replacement and continuous operation of the device. It effectively captures up to 99.97% of fine particles, pollen and mites, helping to keep the air in your home clean and reduce allergens. The durable construction with ABS, a silicone seal and a composite filtering layer supports airtightness, protects the motor from clogging and improves the vacuum cleaner's performance. The ability to wash under water makes hygiene easier and extends the product's lifespan.

Full product description
