Full product description

ZTE F600W - GPON ONU terminal

The **F600W** terminal is a high-end network bridge that will ensure high network performance.

High-speed network

The **F600W** subscriber terminal has an optical **GPON** connector, which will provide a high-speed broadband network via optical fibre. 4 built-in

Fast Ethernet connectors will allow the connection to be separated into additional devices via cables without intermediate devices, while maintaining the speed and stability of the network.

Wireless interface

The **F600W** terminal also has **Wi-Fi** in **802.11b/g/n** standards, through which devices will be able to connect to the network wirelessly. This will allow you to easily increase access to the network near this device.

USB connector

By using **USB** in **ZTE F600W** it will be possible to connect additional devices, e.g. storage media from which data can be shared in the network, or to back up settings on them.
