Full product description

SMXA/3 card dedicated for C320

SMXA/3 is control and power board for **ZTE ZXA10 C320** optical platform with **10GE** port. The board contains: power connector **-48V**, ports(**CLI**, **MONITOR**, **10/100M**, **GE/FE**), 2 ports for **SFP** installation (GE/FE, 10GE/GE) with signaling, power button

The SMXA/3 control board is the central element of the modular OLT ZXA10 C320

SMXA/3 monitors and controls the entire system and performs non-blocking switching of all line cards. It provides **IP VLAN routing, QoS** and is responsible for secure data transmission. The SMXA/3 control board for the **ZTE ZXA10 C320** optical platform chassis includes a -48V power connector, ON/OFF switch, 4 CLI ports, MONITOR, 10/100M, GE/FE, and 2 SFP ports (GE/FE, 10GE/1GE) with signaling.
