Full product description

GPON ZX A10 F601 - GPON terminal

F601 is a client terminal that provides an efficient connection between the **FTTH** fiber network and your own network with high performance.

Modern design and energy efficiency

The **F601** terminal has been designed in a modern style to take up as little space as possible, it looks good and is energy efficient at the same time.

Connection to the high-speed network

Subscriber terminal **ZTE F601** has one **Gigabit Ethernet** connector which will allow to separate the Internet network into more devices and provide stable Internet access.

Reliability

ZTE F601 has a software backup function that will be restored in case of problems with the current version, while the network interfaces are equipped with surge protection.

Supported services

ZTE F601 is a client terminal dedicated to the operation of applications such as VoIP, IPTV in HD quality and Internet at the same time.
