

ZyXEL ES-105A V3 | Switch | 5x RJ45 100Mb/s

link to the product:

<https://www.batna24.com/gb/p/switches/zyxel-es-105a-v3-switch-5x-rj45-100mb-s>

Price: **42.30 zł** gross / 34.39 zł net

Manufacturer: ZYXEL

Referention number: DNXEFNLPKRMMOI

Product features

Regulatory Approvals	FCC, CE, C-Tick, BSMI
Storage relative humidity (H-H)	10 - 95%
Buffer size	56 KB
Height	26 mm
Output voltage	5 V
LED indicators	Activity
Width	121 mm
Depth	75 mm
Storage temperature (T-T)	-40 to 70 °C
Rack mounting	No
Package weight	373.5 g
Power consumption (typical)	0.92 W
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
Switching capacity	1 Gb/s
Networking standards	IEEE 802.3
Switch type	Unmanaged
10G support	No
Full duplex	Yes
Auto MDI/MDI-X	Yes
Operating temperature (T-T)	0 - 50 °C
Package depth	82 mm
Package height	95 mm

AC adapter included	Yes
Package width	127 mm
Quality of Service (QoS) support	Yes
User guide	Yes
MAC address table	1000 entries
Output current	1 A
Power over Ethernet (PoE)	No
AC input frequency	50 Hz
AC input voltage	100 V
Store-and-forward	Yes
Product colour	Silver
Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Fast Ethernet (10/100)
Basic switching RJ-45 Ethernet ports quantity	5
Stackable	No
Product weight	248 g

Full product description

Zyxel ES-105A v3 - 5-port switch

Zyxel ES-105A v3 helps you easily connect multiple devices to your home network with priority connection support.

Technology

QoS with priority ports allows you to maintain smooth network operation, also providing an increased **memory buffer**. **ES-105A v3** stabilizes the operation of connections requiring high data flow using high priority **QoS** ports. **The automatic N-way negotiation** automatically activates **full-duplex** mode and the **store-and-forward** service offers low latency and error-free packet transfer. **Plug-and-play** allows you to easily connect new devices to the network without manual configuration. **Nozzle diodes inform you of problems when loop errors occur in the network, thus preventing transmission storms.**

Energy efficiency in a compact size

Compatibility with **IEEE 802.3az Energy Efficient Ethernet** ensures energy efficiency without loss of performance. **ES-105A v3** automatically detects the power consumption of the connected devices and the cable length, thus consuming less power for short distances between devices. The power consumption is changed dynamically, depending on the number of inactive ports, and the detected lack of data transmission in the network automatically switches to **power saving mode**. Thanks to its compact size and minimalist design **ES-105A v3** does not take up much space on your desk or wall and blends in well with your environment.
