Price: **345.73 zł** gross / 281.08 zł net

Manufacturer: ZYXEL

Referention number: DNXEFLQLRMPP

Product features

Regulatory Approvals	CE, FCC, C-Tick, Class A, Class B, BSMI CNS13438
Height	27 mm
Width	250 mm
Depth	104 mm
Package weight	1040 g
Harmonized System (HS) code	85176990
Networking standards	IEEE 802.1p
Switch type	Managed
10G support	No
Full duplex	Yes
Auto MDI/MDI-X	Yes
Broadcast storm control	Yes
Package depth	227 mm
Package height	64 mm
Safety	LVD EN60950-1, BSMI CNS14336-1
Package width	302 mm
Quality of Service (QoS) support	Yes
VLAN support	Yes
IGMP snooping	Yes
Web-based management	Yes
Flow control support	Yes
Power over Ethernet (PoE)	No

Store-and-forward	Yes
Product colour	Black
Switch layer	L2+
MAC address filtering	Yes
Multicast support	Yes
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Basic switching RJ-45 Ethernet ports quantity	8
Product weight	650 g

Full product description

Zyxel GS1900-8 - 8-port manageable switch

The **Zyxel GS1900** series are free-standing, compact **gigabit** switches with rack mount option. They will enable you to create a fast network in offices and other rooms - in a convenient place.

Configuration assistant

The **Series of Zyxel GS1900** Switches has an interface for configuration and management using a **web browser**. This allows you to quickly and conveniently configure the network in four steps: initial settings, VLAN, Guest VLAN and QoS.

Energy saving

Switches series **GS1900** have been equipped with technological solutions that will reduce the amount of energy consumed:

- **Low link activity detection in 802.3az Energy Efficient Ethernet (EEE)** - low network traffic is detected and **switch** can adjust the power consumption of the link. The 802.3az function can be easily set by a switch on the housing.
- **Detect inactive links** - detection of inactive links or devices will reduce power consumption.
- **Detection of wire length** - this function adjusts power consumption. Based on the detected distance from the connected device it will reduce power consumption accordingly.
- **No fans** - quiet operation is ensured by the design without active cooling, so **GS1900** switches will work well in small rooms.
