Manufacturer: ZYXEL

Referention number: DNXXGFNQPMRMNKJ

Product features

Storage relative humidity (H-H)	10 - 95%
Height	51.5 mm
LED indicators	Status
Modulation	256-QAM
WAN connection	Ethernet (RJ-45)
Width	236 mm
Depth	178 mm
Mounting kit	Yes
Input current	3 A
Storage temperature (T-T)	-30 - 70 °C
Cables included	LAN (RJ-45)
Maximum data transfer rate	1733 Mb/s
Power consumption (typical)	25 W
Humidity measurement range	10 - 90%
USB 2.0 ports quantity	1
Harmonized System (HS) code	85176990
Quick start guide	Yes
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	3
Auto MDI/MDI-X	Yes
Flash memory	512 MB
DC-in jack	Yes

Wi-Fi data rate (max)	1733 Mbit/s
Operating temperature (T-T)	0 - 40 °C
AC adapter included	Yes
Reset button	Yes
Internal memory	4000 MB
Placement	Ceiling
AC input voltage	12 V
Antennas quantity	9
Antenna features	Integrated antenna
Product colour	Grey
Internal	Yes
5 GHz	Yes
2.4 GHz	Yes
Product weight	740 g

Full product description

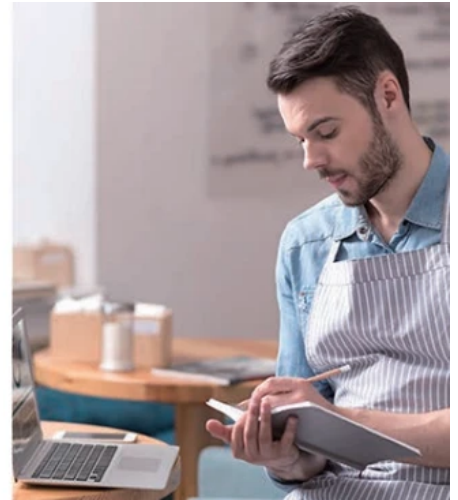

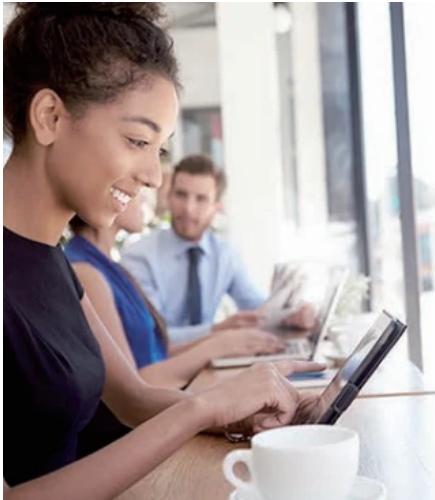

Modern Mesh Networking System from Zyxel

Zyxel Multy AC3000 Triband WiFi is a state-of-the-art equipment using mesh **technology**, allowing to expand the network around the home. The set consists of two routers working in **802.11 a/n/ac** standard, which allows to use 5GHz network with speeds **up to 1733 Mbps** (with Dedicated Backhaul mechanism), or **up to 867 Mbps** without Backhaul system.

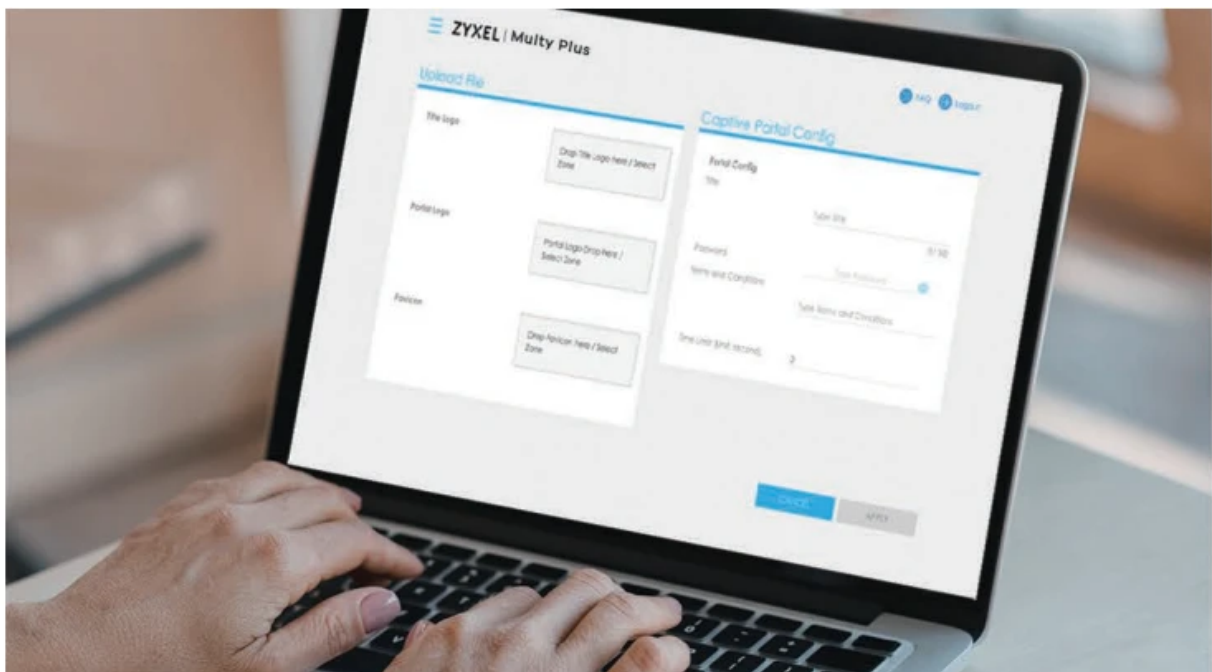

Device for companies

The **Zyxel Multy Plus AC3000 WiFi System** is designed to be a **business-friendly mesh** networking solution, making it easy for the owner to set up their network in their business. The device creates a **fast, reliable and flexible wireless network** for your workplace. Whether your business environment is large or small, Multy Plus will keep you **connected** at all times.

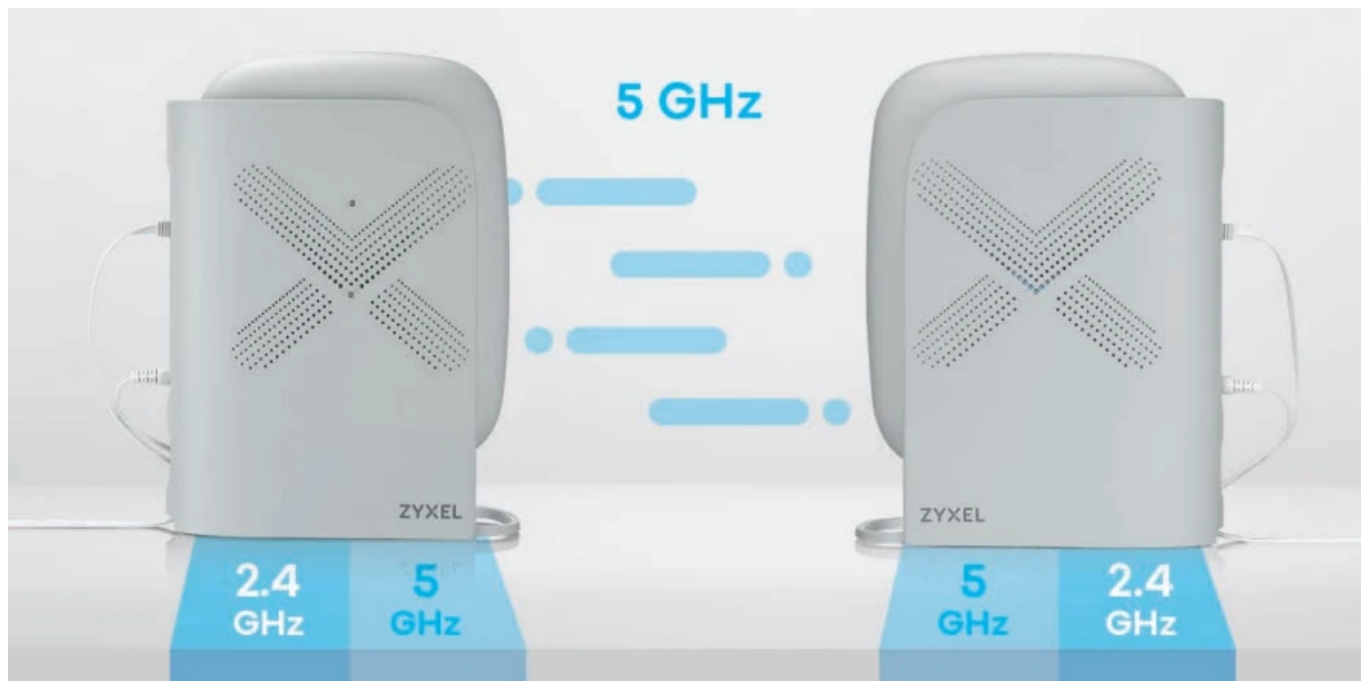

Secure network

The **Multy Plus AC3000 Triband** from **Zyxel** allows you to create up to three Wi-Fi networks with built-in traffic separation security. The security systems are accessed through a web browser, which comes with a user-friendly panel so you can manage the security of your network extremely easily. The Multy configuration panel makes it easy to make changes to your home or business network. **Keep your network private** by creating separate Wi-Fi networks for guests and customers.

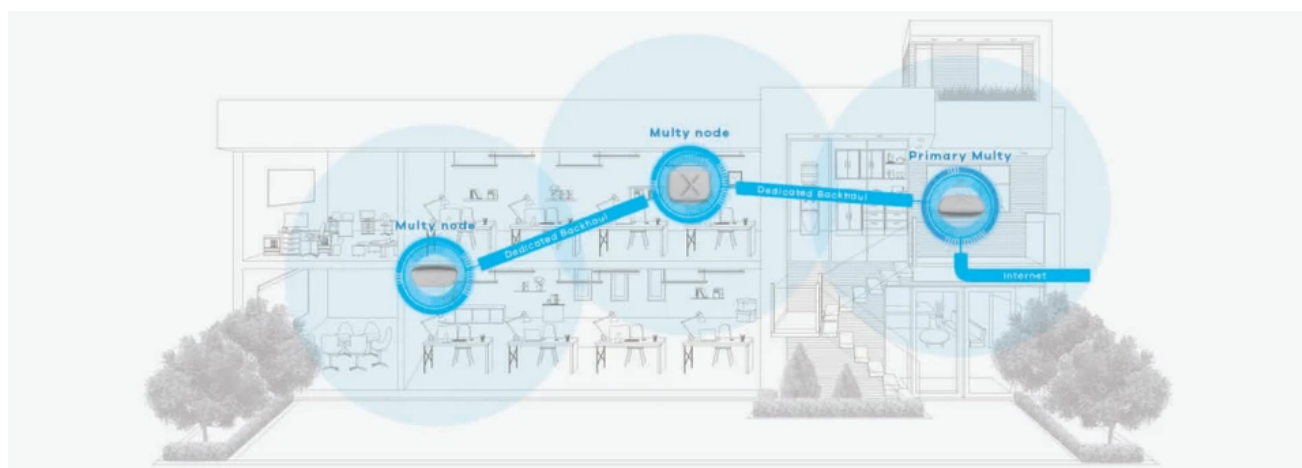

Reliable in every way

With its advanced technology, **Zyxel Multy Plus** offers **fast and stable** network **connectivity** throughout your home or business. You do not have to worry about the speed deterioration or coverage loss. **Zyxel** has made sure that their device is reliable.

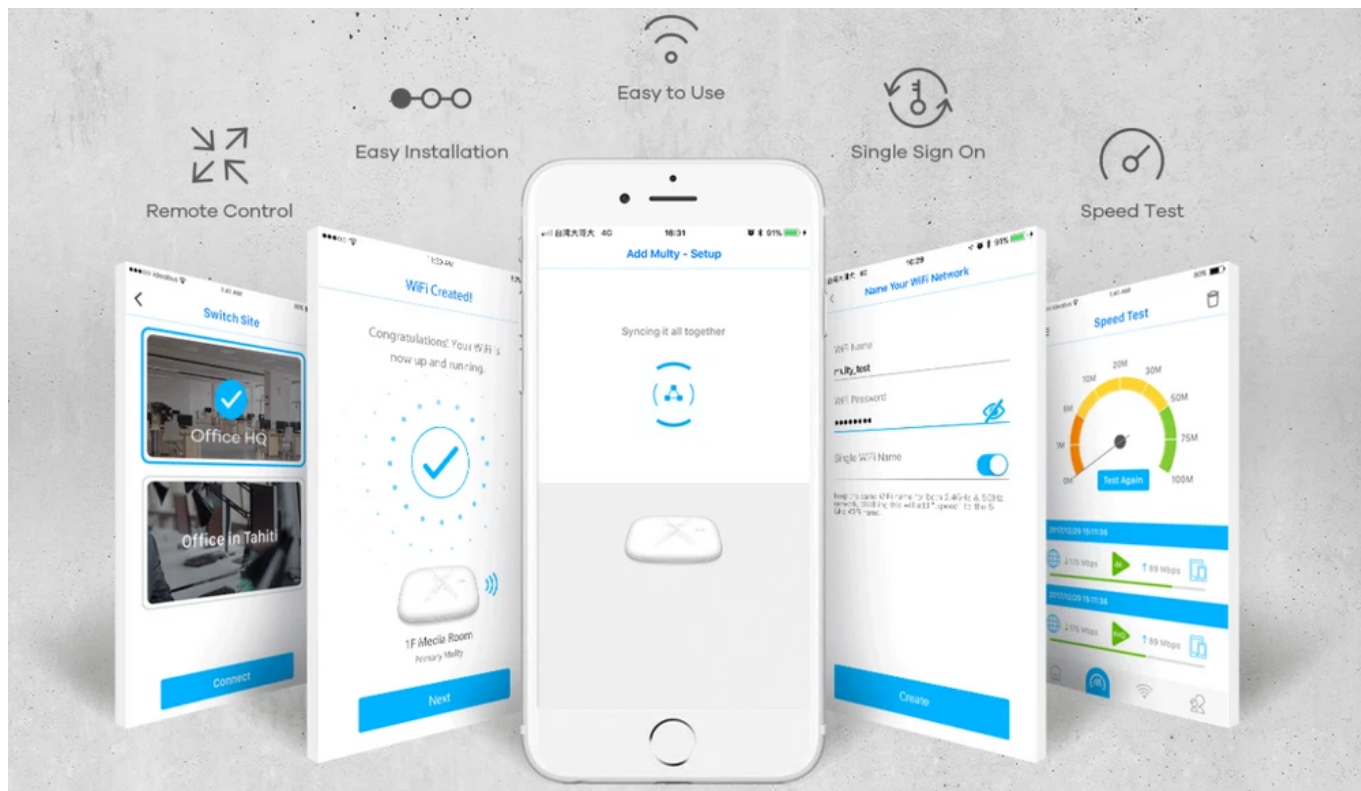

Coverage in every corner

The daisy-chain connection allows the **Zyxel Multy Plus** to create a continuous wireless connection that covers your entire workplace. No matter where you are, you can deploy multiple **Multy Plus** nodes throughout your environment for **even greater wireless coverage**. The mesh-based WiFi network helps spread the signal evenly, and advanced systems will automatically switch your devices to the fastest network node.

Easy in-app network access

The **Zyxel Multy Plus** is compatible with the dedicated **Multy APP** available for Android and iOS phones. It allows you to **remotely configure** and **monitor the status of your network** without any hassle. You don't have to worry about the status of your network, you can check it from your phone anywhere with just two clicks. The application has a lot of additional features that allow you to easily **increase the security of your network**, such as blocking devices or setting data limits. The intuitive Multy app makes it easy to start your network or individual network settings.

Designed to be mounted in 5 options

Multy 's discreet mounting system offers **simple installation** in a variety of options, giving you the convenience of choosing the location of the device in your environment. You can install the Zyxel Multy AC3000 Triband anywhere. The functionality of the mounting kit allows you to place the device on the wall or ceiling, or even attach it to a drop ceiling.
