Price: **1,371.57 zł** gross / 1,115.10 zł net

Manufacturer: ZYXEL

Referention number: DNXGFMLQDRMMIP

Product features

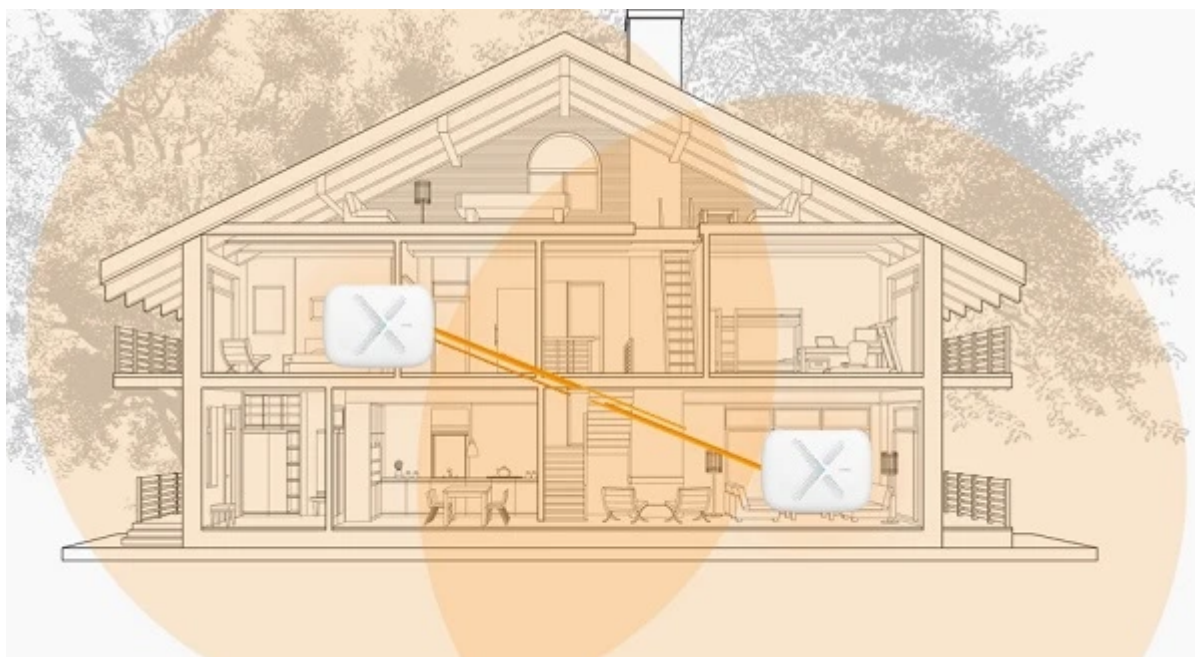

Storage relative humidity (H-H)	10 - 95%
Product type	Tabletop router
Height	51.5 mm
Output voltage	12 V
LED indicators	LAN
USB charging port	Yes
Memory card slot(s)	No
Universal Plug and Play (UPnP)	Yes
Width	236 mm
Depth	178 mm
4G	No
Power management	25 W
Storage temperature (T-T)	-30 - 70 °C
Package weight	1790 g
Humidity measurement range	10 - 90%
USB 2.0 ports quantity	1
Harmonized System (HS) code	85176990
Ethernet LAN interface type	Gigabit Ethernet
Networking standards	IEEE 802.11ac
Ethernet LAN (RJ-45) ports	3
Auto MDI/MDI-X	Yes
DC-in jack	Yes

Operating temperature (T-T)	0 - 40 °C
Package depth	71 mm
Package height	215 mm
Package width	339 mm
Quality of Service (QoS) support	Yes
Reset button	Yes
Output current	3 A
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11b
Ethernet LAN	Yes
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 4 (802.11n)
Processor cores	4
Processor model	Qualcomm Atheros IPQ4019
Power source type	DC
Built-in processor	Yes
Antenna design	Internal
3G	No
Antennas quantity	9
Product colour	White
Ethernet WAN	Yes
WLAN data transfer rate (max)	400 Mb/s
3G/4G USB modem compatibility	No
Product weight	890 g

Full product description

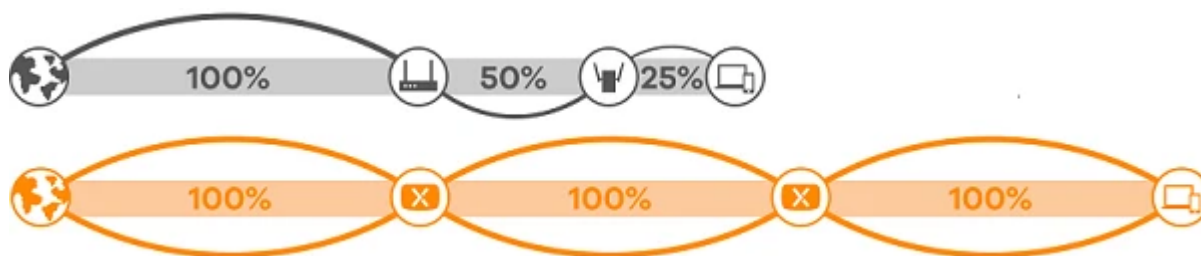

Zyxel AC3000 - tri-band Wi-Fi system

The **Multy** system will allow you to build a great wireless network, with better coverage and stronger signal strength - in both small and large houses.

Extremely long Wi-Fi range

Multy X can cover an area of 400 m2 with the signal - without compromising connection performance, as is the case with traditional Wi-Fi amplifiers.

Maximum connection speed

Multy X AC3000 has a three-band Wi-Fi system and provides maximum speed through a special connection between two points - based on 5 GHz. Wireless network shared with other devices - operates in the 2.4 GHz and 5 GHz bands.

Ease of installation and management

The **Multy** system can be managed through the **Multy X** application, which will allow any user to manage devices in an intuitive and accessible way. Installation is very simple, and logging into the application panel can be done using Facebook or Google account. The service of checking the connection speed will allow you to verify whether the Internet service provider meets our expectations. With parental control it will be possible to restrict children's access to unwanted content on the Internet. Remote management of the **Multy** system will make it possible to check the operation of the home network or make it available to guests even while away from home. Automatic updates will ensure the highest level of system operation - its performance and reliability.

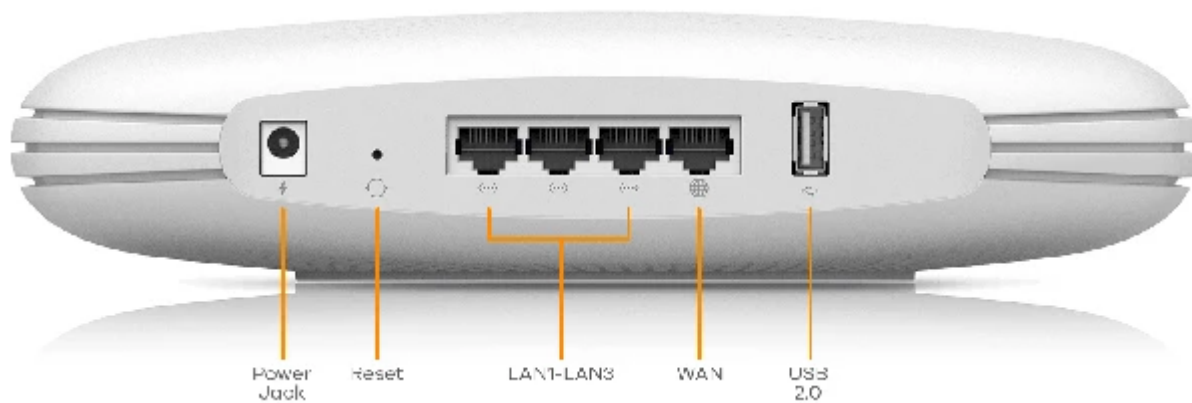

Innovative wireless network system

The three-band system used in **Multy X** ensures excellent network performance throughout the home - thanks to the direct connection of all devices. The cooling system in the device will ensure that the increased temperature will not interfere with full performance.

Package contents

Multy X 2-pack contains a set consisting of two devices that will allow you to build the entire home network system.

Connections in the device

Easily accessible sockets ensure trouble-free operation and the ability to quickly connect new devices.
