Price: **1,691.40 zł** gross / 1,375.12 zł net

Manufacturer: ZYXEL

Referention number: DNXFMKJMGRMMIP

Product features

Regulatory Approvals	FCC part 15B/C/E, ETSI EN 300 328, EN 301 893/489-1/-17, LP0002, EN55022/24, EN61000-3-2/-3, BSMI CNS13438/14336-1, EN/IEC 60950-1
Storage relative humidity (H-H)	10 - 90%
Height	34.7 mm
Modulation	16-QAM
Width	203.9 mm
Depth	191.7 mm
Security algorithms	802.1x RADIUS
Wi-Fi Multimedia (WMM)/(WME)	Yes
Storage temperature (T-T)	-40 - 70 °C
Maximum data transfer rate	1300 Mb/s
Package weight	1210 g
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	5 gain
DC-in jack	Yes
Operating temperature (T-T)	0 - 50 °C
Package depth	235 mm
Package height	100 mm
Package width	240 mm

VLAN support	Yes
Firmware upgradeable	Yes
Service Set Identifier (SSID) features	SSID broadcast on/off
Frequency range	80 MHz
Power over Ethernet (PoE)	Yes
Placement	Ceiling
AC input frequency	50 Hz
AC input voltage	100 V
Wireless isolation	Yes
Antennas quantity	3
Number of SSID supported	16
Product colour	White
MAC address filtering	Yes
DHCP client	Yes
Internal	No
5 GHz	Yes
2.4 GHz	Yes
Product weight	445 g

Full product description

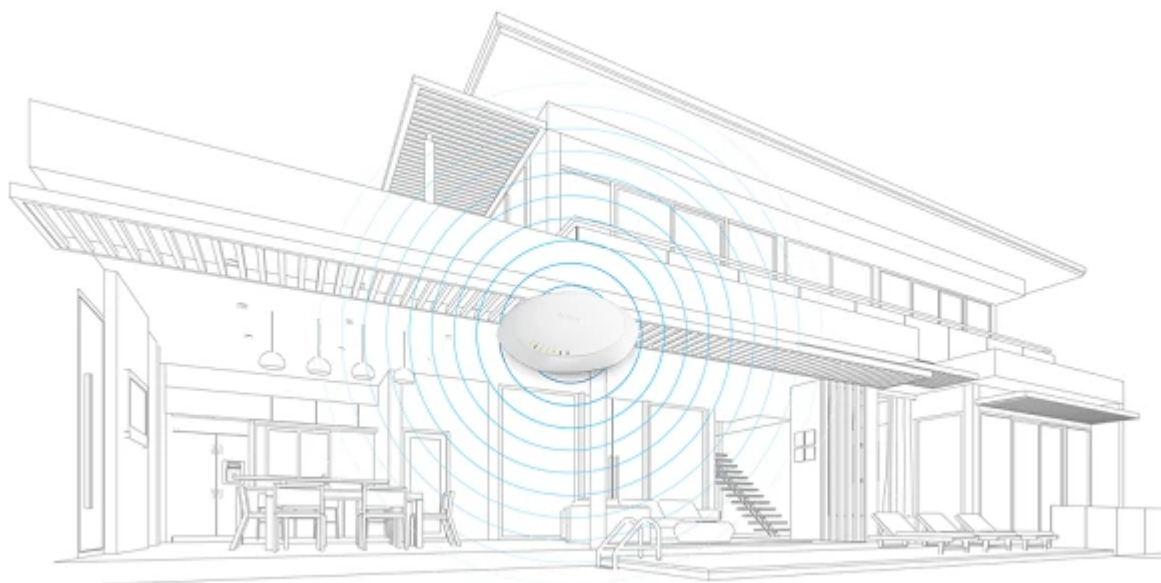

Zyxel NWA1123-AC PRO 802.11ac

Hybrid Access Point Zyxel NWA1123-AC PRO allows for data transmission with a maximum speed of 1.75 Gb/s. The device's antenna has been created by Zyxel in the "RF First" approach, which provides all connected devices with better range and speed parameters. Thanks to **NebulaFlex** technology, the access point can be easily managed between standalone operation and cloud-managed mode.

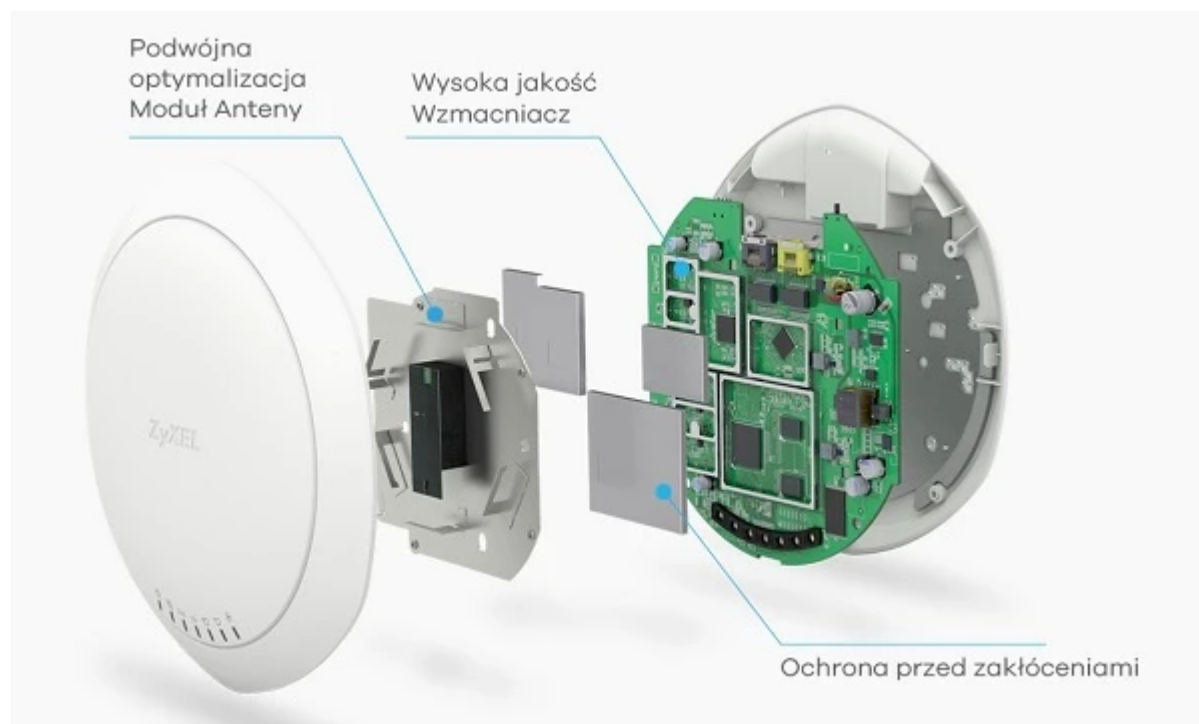

Style and technology

Access point **Zyxel NWA1123-AC PRO** is characterized not only by high performance, but also a modern style of workmanship that will perfectly match the interior design of any room.

Optimisation of solutions

Innovative solutions of Wi-Fi wireless technology allowed to improve radio parameters in **access point**. Equipped with DCS and load balancing mechanism **Zyxel NWA1123-AC PRO** ensures the best quality of wireless network operation. The installation of the device through a three-stage ZON configuration makes the operation of the **access point automatically**, without the need for additional management tools. The administrator can easily monitor the device via SNMP, which is accessible even to the novice user. The **repeater** and **root-AP** modes are supported by **NWA1123-AC PRO** compatible Zyxel Unified and Zyxel Unified Pro products. This allows for the expansion of wireless connectivity through a premium WDS system operating under severe installation conditions. **NWA1123-AC PRO** also has other useful features such as multi-profile SSID and a range of Wi-Fi security features.

Excellent performance

NWA1123-AC PRO is equipped with a double-optimized antenna module, power amplifier and low-noise components, all of which guarantee connection quality at the highest level.
