Price: **131.47 zł** gross / 106.89 zł net

Manufacturer: ZYXEL

Referention number: DNXFMHQLJRMNP

Product features

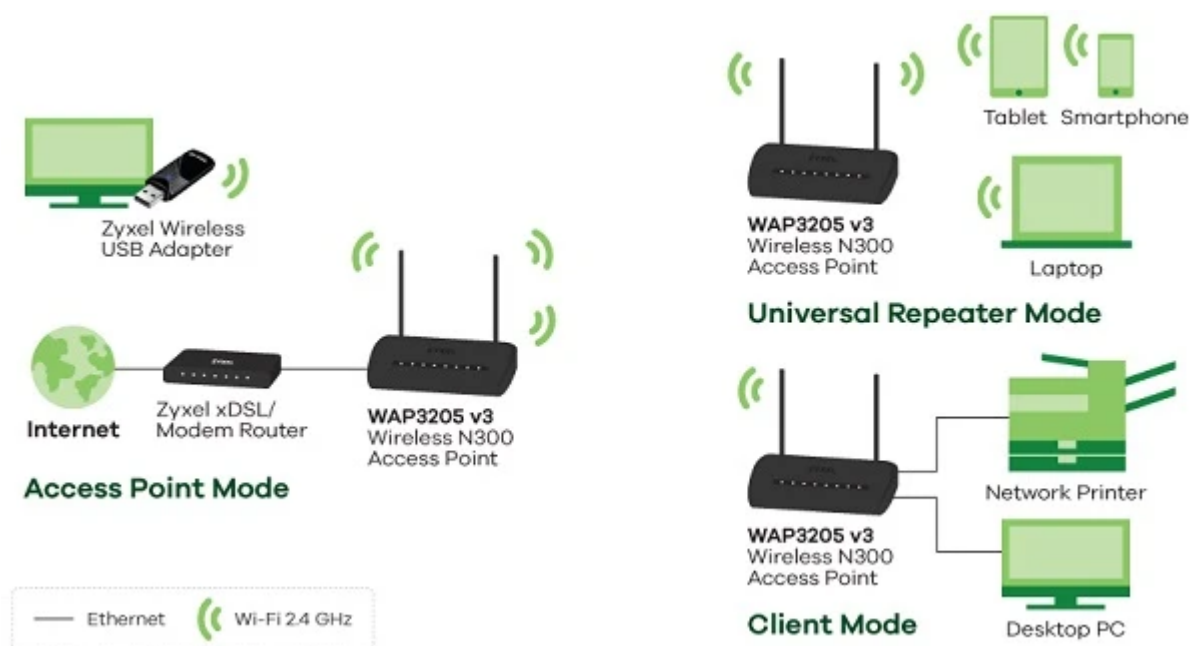

Regulatory Approvals	CE-LVD, BSMI, CE, FCC, NCC
Storage relative humidity (H-H)	10 - 95%
Height	23 mm
LED indicators	LAN
WAN connection	Ethernet (RJ-45)
Bandwidth	2.4 GHz
Width	142 mm
Depth	95 mm
Security algorithms	128-bit WEP
Wi-Fi Multimedia (WMM)/(WME)	Yes
Power management	Yes
Input current	1 A
Storage temperature (T-T)	-30 - 70 °C
Maximum data transfer rate	300 Mb/s
Package weight	441 g
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
Networking standards	IEEE 802.3
Ethernet LAN (RJ-45) ports	5
Antenna gain level (max)	5 gain
Auto MDI/MDI-X	Yes
DC-in jack	Yes

Operating temperature (T-T)	0 – 40 °C
Package depth	61 mm
Package height	205 mm
Package width	288 mm
Reset button	Yes
Firmware upgradeable	Yes
WPS push button	Yes
On/off switch	Yes
Placement	Table
AC input voltage	5 V
Antennas quantity	2
Product colour	Black
Automatic channel selection	Yes
Internal	No
5 GHz	No
2.4 GHz	Yes
Product weight	180 g

Full product description

Zyxel WAP3205 V3 - multifunctional wireless access point

Access point **WAP3205 V3** will allow you to create or extend an existing **Wi-Fi** network.

Three modes of operation

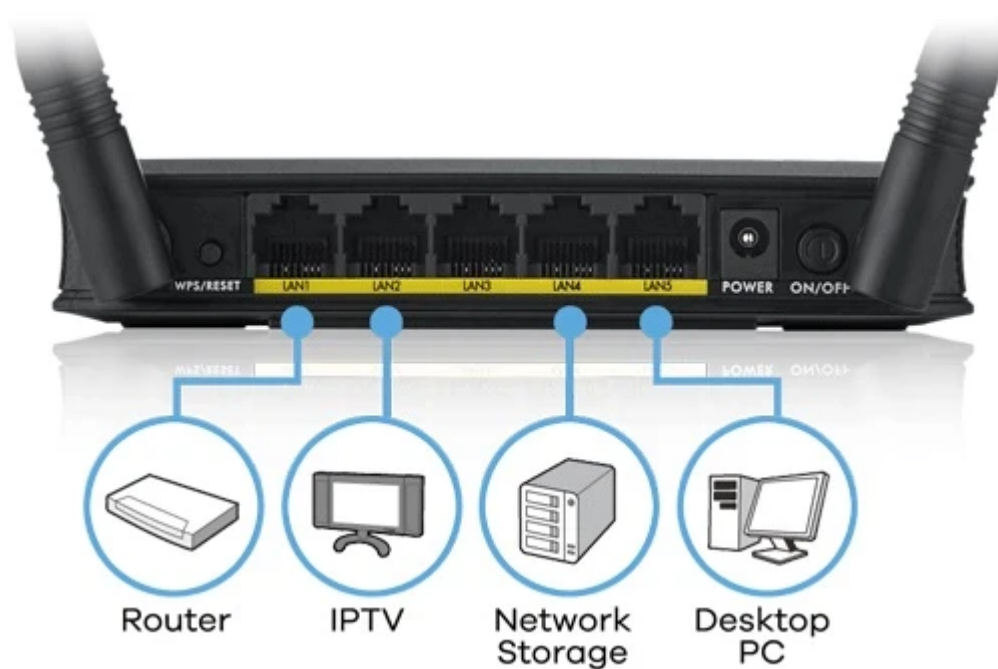

Access point **WAP3205 V3** has three modes of operation:

- **A access point mode** - for home or small office users - allows you to create a wireless N network.
- **Relay mode** - for home users who want to expand the zone of the existing wireless network.
- **Customer mode** - for users who want to connect to the existing N-type wireless network.

Modularity

Access point **WAP3205 v3** has screwed-in WiFi antennas, which allows to upgrade it in the future with stronger antennas.

High functionality

The WiFi access point with Ethernet **WAP3205 v3** output has as many as 5 connectors, to which devices can be connected directly by cable - to ensure a permanent connection. WiFi Protected Setup (WPS) Mode **WiFi Protected Setup (WPS)** will allow for an instant connection of wireless devices to the **access point**, just press the **WPS** button on the back of the router. **WAP3205 v3** can disable its **WiFi** network according to a set schedule when the network is not in use. In addition, it allows you to adjust the **WiFi** output power, which will help reduce power consumption.

Made in good style

ZyXEL WAP3205 v3 has LEDs that clearly indicate the status of the device and network. The compact size will make it easier for us to locate it, e.g. it can be mounted on a wall.
