Full product description

Highest Quality Picture and Sound for your Home Entertainment Center

Discover the latest generation of the HDMI standard with the **HDMI 2.1 Ultra High Speed cable from Extralink**, which revolutionizes the quality of video and audio transmission. Utilizing advanced **Ultra HD** technology, this cable delivers unprecedented image detail with support for **8K resolution at 60Hz**. It's ideal for home theater enthusiasts and gamers who demand the highest visual quality. This cable also supports smooth **4K at 120Hz**, making it an indispensable accessory for modern TVs, latest generation consoles and high-performance PCs. Enjoy perfectly smooth images even in the most dynamic action scenes.

HDMI 2.1 CABLE 1.5M

Extreme 48 Gbps Bandwidth: Guaranteed for the Latest Picture and Sound Standards

With a **bandwidth of as much as 48 Gbps**, the **HDMI 2.1** cable offers three times the performance of the previous 2.0 version (18 Gbps). This tremendous data transfer power enables the transmission of pristine image quality while supporting state-of-the-art technologies such as:

- **HDR (High Dynamic Range):** For richer colors and deeper contrasts.
- **eARC (Enhanced Audio Return Channel):** For superior surround sound quality.
- **VRR (Variable Refresh Rate):** For smoother gameplay without image stuttering.
- **4:4:4 Sampling:** For perfect color reproduction, especially important for graphic designers and professionals.

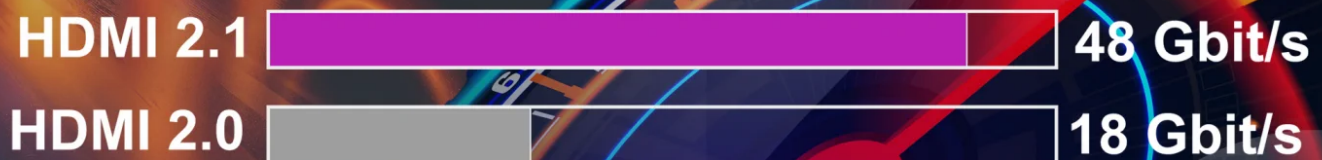

These advanced features guarantee extremely clear, realistic images and immersive surround sound that will satisfy even the most demanding users.

ULTRA-FAST TRANSMISSION

Bandwidth up to 48 Gb/s

HDMI 2.0

HDMI 2.1

Universal Resolution Support: 8K to Full HD

The **HDMI 2.1 Ultra High Speed cable** is designed with versatility in mind, offering support for a wide range of resolutions, including:

- **8K (7680x4320):** The highest resolution available for incredible detail.
- **4K:** The standard for modern TVs and monitors.
- **2K (QHD):** A popular resolution for gaming monitors.
- **Full HD 1080p:** A classic resolution for excellent picture quality.
- **HD:** The standard resolution for many devices.

Whether you're connecting an **8K TV**, a professional graphics monitor or a gaming console, this cable will provide optimal image quality, perfectly suited to your needs and the capabilities of your equipment.
