Full product description

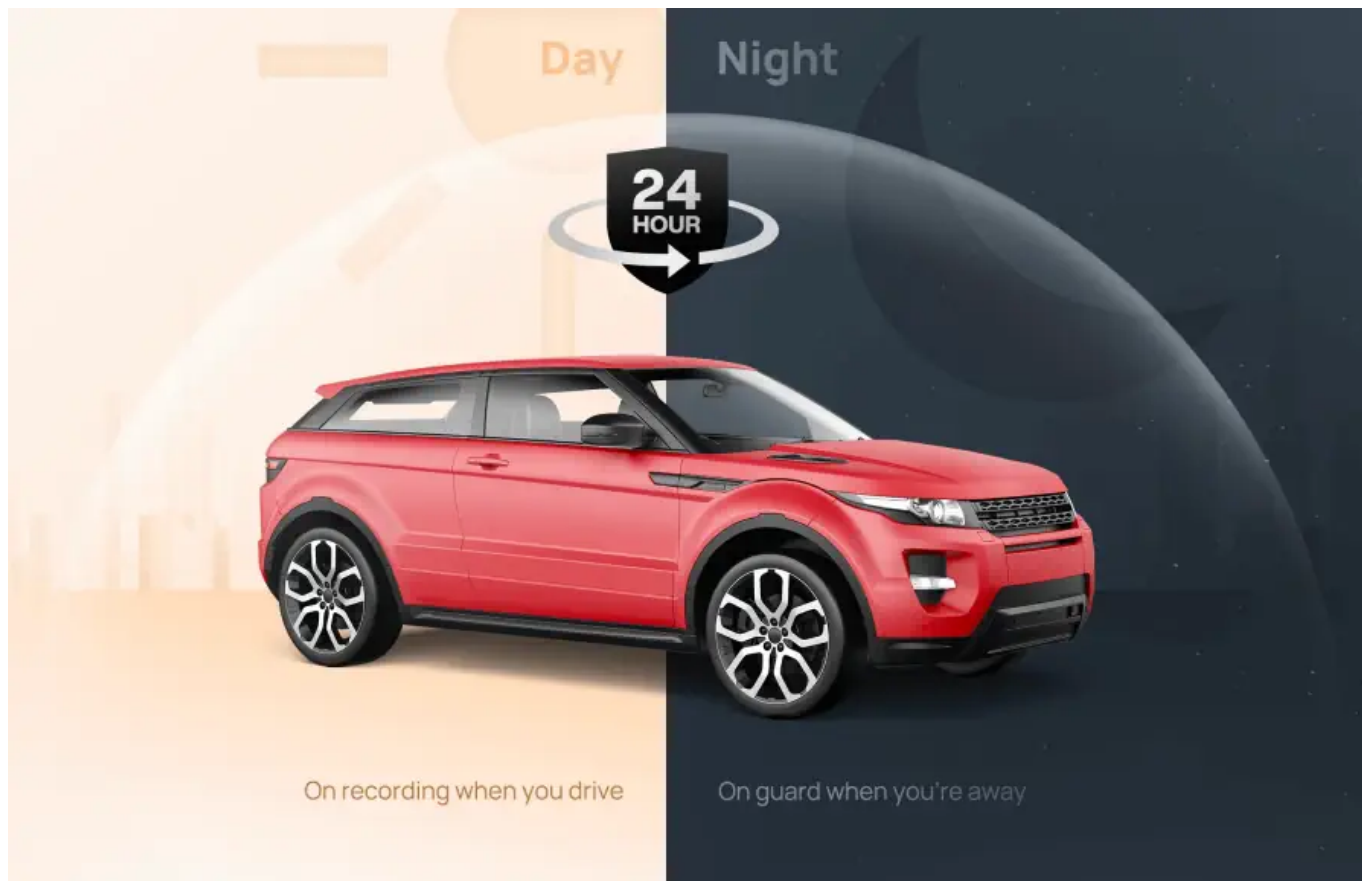

Xiaomi 70mai Dash Cam A400 Car DVR set with rear camera A400 RC09

The **70mai Dash Cam A400** comes with a 3.6MP camera that records 2.5K video (2560 x 1440 pixels). It comes with the **70mai RC09 rearview camera**, so you can record what's happening both in front of and behind your car. With a 145° viewing angle, the camera covers 3 lanes of traffic and pedestrian areas. **The 70mai Dash Cam A400** provides recurring recording and 24/7 parking lot monitoring.

Security and registration

You no longer have to worry about whether your car is parked or not. Thanks to the built-in **G-sensor**, which automatically turns on recording whenever there is a collision. What's more, loop recording means you don't have to worry about running out of memory and important things not being recorded. With the 70mai App, you can easily review your recordings in real time from your smartphone. The **Dash Cam A 400** supports up to **128GB** memory cards and has a **built-in 500mAh battery**.

Cyclic recording and control via smartphone

The **70mai A400 video recorder** connects to the 70mai mobile app on your smartphone via Wi-Fi. Directly on your mobile device, **you can configure** DVR settings, view footage and download result files. You no longer have to worry about your memory card filling up, the **70mai Dash Cam A400** saves data cyclically. This means that when the memory card is full, old files will be deleted and new files will be added in their place.
