Height	22 mm
Panel type	IPS
Charging device	Yes
Width	77.2 mm
Depth	72.2 mm
Languages support	English
Cables included	Micro-USB
Battery capacity	500 mAh
Night mode	Yes
Number of cameras	1
Main camera sensor	GC4653
IFU / User manual	Yes
Holder	Yes
Operating temperature (T-T)	-10 - 60 °C
Video loop recording	Yes
Minimum aperture number	2
Main camera resolution (numeric)	2592 pixels
Maximum frame rate	30 frames per second
Self-adhesive tape	Yes
Time lapse mode	Yes
Audio recording	Yes

Display diagonal	2 "
Cigar lighter adapter included	Yes
Internal memory	128 GB
Wi-Fi	No
Bluetooth	Yes
Power source type	Battery
HD type	Quad HD+
Main camera sensor resolution	1440 MP
Main camera viewing angle	145 °
Product colour	Black
Built-in storage media	Yes
Built-in display	Yes
Position location	No

Full product description

Video recorder 70mai Dash Cam A400

The **70mai Dash Cam A400** is equipped with a 3.6MP camera that records **2.5K video (2560 x 1440 pixels)**. With a 145° viewing angle, the camera covers 3 lanes and pedestrian zones. The device records cyclically and monitors parking lots around the clock.

Wide viewing angle and high resolution

The **70mai A400** is equipped with a **3.6MP** camera. It provides great image quality both day and night. With night vision technology, the device automatically adjusts exposure in low light conditions. The **70mai Dash Cam A400** records video in **2.5K resolution (2560 x 1440 pixels)** with accurate color reproduction. The **145° viewing angle** covers 3 lanes and pedestrian zones on the sides.

24/7 parking monitoring and control via smartphone

The built-in **G-sensor** detects a collision or impact with your car and automatically activates recording of what happened. This feature will help you monitor your car around the clock when it is parked. The car video recorder connects via Wi-Fi to the **70mai mobile app** on your smartphone. Directly on your mobile device, you can configure the data recorder settings, watch the footage and download the result files.

Loop recording

You don't have to worry about your memory card filling up anymore, **70mai Dash Cam A400** saves data cyclically. This means that when the memory card is full, old files will be deleted and new files will be added in their place.
