70mai

Manufacturer: 70MAI

Referention number: DNXXGGHOLERMLPK

Product features

Battery capacity	500 mAh
Main camera resolution (numeric)	3840 pixels
Display diagonal	3 "
Interior camera viewing angle	130 °
Main camera viewing angle	140 °

Full product description

Xiaomi 70mai Dash Cam A800S Car DVR

The A800S camera pushes the boundaries of image quality with the industry's highest resolution standard up to **4K Ultra High Definition (3840×2160)**, delivering incredibly sharp images on the go.

Exceptional image quality

The **A800S** uses **7 layers of F1.8** high-quality glass lens and a **Sony IMX415** sensor that processes footage faster for sharper, clearer images. The **new processor** also enables 4K image processing in just milliseconds.

Enhanced functions

The **70mai A800S car DVR** has improved features over the A800 it replaces. It has a large **3" screen**, g-sensor and built-in GPS. The camera comes with WiFi and app support for Android and iOS. The A800S camera has a built-in **advanced driver assistance system (ADAS)**.

The Lane-departure Warning System

Alert you when the car starts drifting from your lane by monitoring lane marks on the road.

Normal Driving

Under ADAS protection

The Forward-Collision Warning System

Recognize vehicles ahead of you, calculating their speed and the space to prevent forward collisions.

Built-in GPS and 24-hour surveillance

Tracks and displays real-time trip data including time, speed (km/h, mph) and coordinates. Tracks **the exact location** of an accident when it occurs, which is important for roadside assistance and insurance claims. The built-in **G-sensor** can detect sudden bumps or crashes when the car is stationary and will automatically start recording to record any events that occur. If a video of an accident is recorded, **the 70mai A800S car video recorder** will notify you with a voice alert when you turn it on.

App control and video streaming

Connect to the **70mai App** via the camera's WiFi to set up and control the camera, as well as manage, upload and share recordings. With the **70mai A800S**, sharing is no longer a problem. In the event of an accident, **share footage** with your insurance company to streamline the claims process. **Share your landscape videos** directly to social media including Youtube, Facebook, Instagram, VK, etc. while on the go, preserving beautiful memories wherever you are.

Key features

- Excellent night vision
- Advanced Driver Assistance Systems (ADAS)
- 24-hour parking surveillance
- Built-in GPS
- Control and share recordings in the application
