Full product description

Akaso Brave 4 Pro - your recordings in the best 4K quality

The Akaso Brave 4 Pro sports camera is an ideal choice for extreme sports enthusiasts, travelers and anyone who wants to capture their memories in the highest resolution. With state-of-the-art features and rugged construction, this camcorder provides crystal clear images and stable recordings, regardless of conditions.

High image quality and stabilization

The Akaso Brave 4 Pro camcorder offers **4K30FPS video** recording **and up to 20MP stills** for clear, detail-saturated images. Thanks to Electronic Image Stabilization (EIS) 2.0 technology, every recording is stable, even in dynamic conditions. The camera also uses a built-in omnidirectional microphone, which provides crystal clear sound, perfect for breathtaking recordings.

Versatility and durability

The Akaso Brave 4 Pro sports camera is a **rugged design that will perform in the toughest conditions**. The waterproof housing (ETUI) allows for deep dives - up to a depth of 40 meters, making it possible to record exceptional videos even underwater. It also comes with a wide range of accessories, such as a wrist band and a variety of mounts to adapt the camera to any situation.

Intuitive operation and recording modes

The Brave 4 Pro is equipped with two color displays - a **touchscreen on the back** and a smaller screen on the front, allowing you to easily set up shots and control your recording. The camera offers a variety of recording modes, such as timelapse, slow motion and loop recording, allowing for creative and dynamic videos. In addition, the camera has a 5x digital zoom to capture even the finest details.
