Aqara

Manufacturer: AQARA

Referention number: DNXXGHIHKFRMLLN

Information:

Aqara Camera Hub G5 Pro PoE is an outdoor 2.6K surveillance camera with intelligent AI that recognises faces, people, vehicles and sounds, enabling smart home automations. It also functions as a Zigbee 3.0 hub, Matter controller and Thread router, supporting Aqara Home, Apple HomeKit, Google Home, Amazon Alexa and Home Assistant. It offers True Full-Colour Night Vision, a 133° wide-angle view, local recording on 32 GB eMMC, storage on NAS or in the cloud, end-to-end encryption, a 100 dB siren and two-way communication. The PoE version provides stable power and transmission via a single cable, and the IP65 housing operates in temperatures from -30°C to +50°C.

Product features

Height	70.5 mm
Width	70.5 mm
Depth	89 mm
Connectivity technology	Wired
Maximum resolution	2688 pixels
Field of view (FOV) angle	133 °
Colour temperature	3000 K
Cables included	AC
Night mode	Yes
Networking standards	IEEE 802.3af
Number of cameras	1
Number of lenses	1
Weatherproof	Yes
Protection features	Weatherproof
Built-in light	Yes

Minimum aperture number	1
Supported graphics resolutions	2688 x 1520
Cloud-managed	Yes
Screws included	Yes
Video recording	Yes
International Protection (IP) code	IP65
Remote viewing	Yes
Day/night mode	Yes
Wi-Fi standards	802.11b
Bluetooth	Yes
Ethernet LAN	Yes
Power source type	PoE
Product colour	Grey
Mounting hardware type	Ceiling/Wall
Type	IP security camera
Designation	Outdoor
Product weight	641 g

Full product description

Aqara Camera Hub G5 Pro PoE - Smart camera with Zigbee hub for your home

Protect your home with modern technology and enjoy smart security thanks to **Aqara Camera Hub G5 Pro PoE**. This is not just a camera - it is an advanced monitoring device that also serves as a **Zigbee hub, Matter controller and Thread router**, providing full control over your smart home. Thanks to **artificial intelligence, colour night mode and end-to-end encryption**, you can be sure that your data is safe and your home is well protected.

Advantages of the Aqara Camera Hub G5 Pro

- **Zigbee 3.0 Hub, Matter Controller, Thread Border Router** – easily connect with the full range of additional Aqara sensors and devices.
- **Advanced artificial intelligence** – the camera recognises faces, sounds and movement, enabling smart automations.
- **True Full-Color Night Vision colour night mode** – better image quality after dark.
- **Local and cloud recordings** – 32 GB eMMC + option to store on NAS or in the cloud.
- **Built-in 100 dB siren** – deters intruders thanks to two-way communication.
- **Weather resistance** – IP65 certification guarantees operation even at -30°C.
- **RTSP and Home Assistant integration** – full control over video recording and streaming.

Smart home – automations tailored to your needs

Thanks to Aqara Home and Zigbee 3.0, you can create smart scenarios, for example:

- When the camera detects movement, it will automatically switch on the light and adjust its brightness.
- If it recognises an unknown face, it will trigger an alarm and notify you on your phone.
- Thanks to the motion sensor, it records only when necessary, saving space.

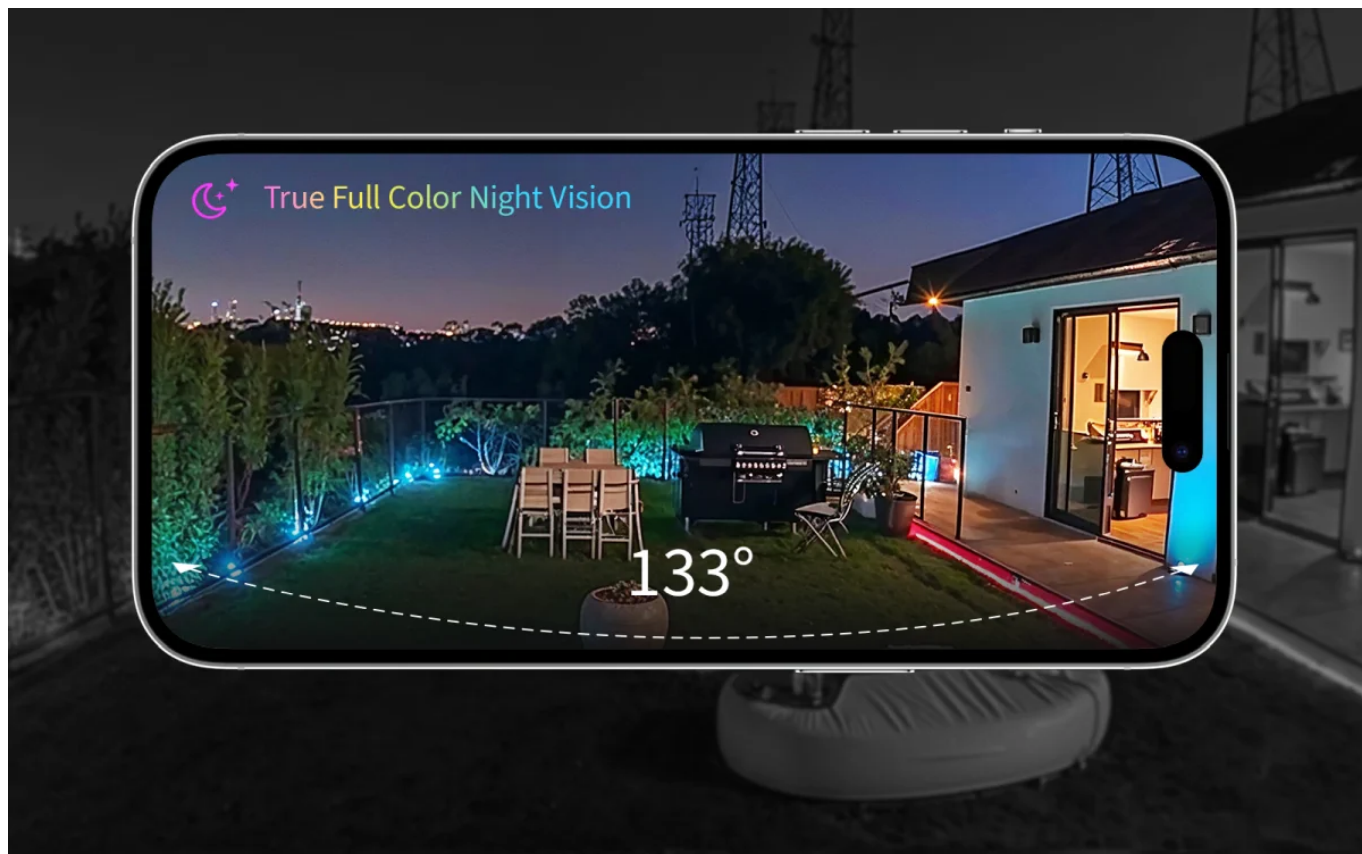

Artificial intelligence technology and smart home platform support

Aqara Camera Hub G5 Pro is the first outdoor **Aqara camera** that integrates **Zigbee 3.0, Matter and Thread**, allowing seamless communication with other smart home devices. Support for platforms such as **Apple HomeKit, Google Home and Amazon Alexa** means you can fully automate your home – from monitoring to controlling lighting and alarms. Thanks to **built-in AI**, the camera can **recognise household members' faces**, as well as detect vehicles, people and sounds, allowing precise automation triggers and improved security.

True colour night vision – see more after dark

Thanks to the **4 MP 1/1.8" sensor and wide 133° field of view**, the Aqara G5 Pro camera records in **2.6K resolution (2688×1520)**, delivering exceptional quality even after dark. The **large f/1.0 aperture captures 4 times more light** than standard lenses, which, combined with **True Full-Color Night Vision** technology, guarantees clear, full-colour recordings without the need for black-and-white mode. The built-in **LED spotlight** additionally brightens dark areas and can act as a deterrent to intruders.

Security at the highest level - protection of your data

Thanks to **end-to-end encryption**, your recordings remain private – even if you use the cloud. **HomeKit Secure Video**, local storage on **32 GB eMMC** memory, the option to save to NAS and RTSP integration mean you have full control over your data.

Stability and reliability with PoE

The **PoE (Power over Ethernet)** version provides a **reliable connection without the need for Wi-Fi**. The camera is powered and connected with a single **Ethernet RJ45** cable, eliminating interference issues and increasing image transmission stability. It is the ideal solution for users who expect maximum performance and security.

Advanced outdoor monitoring - reliable protection in all conditions

Aqara Camera Hub G5 Pro has been designed for **outdoor monitoring**, offering a **durable IP65-rated housing** that effectively protects against rain, dust and snow. The camera operates reliably in extreme temperatures - **from -30°C to +50°C**, making it an ideal choice for both harsh winters and hot summers. Thanks to easy integration with the **Aqara Home app**, **advanced AI detection**, **built-in 100 dB siren** and **two-way voice communication**, the G5 Pro provides full control over the area around your home, allowing you to react quickly in any situation.

Aqara G5 Pro - The best camera for a smart home? [Zigbee, Matter, AI, PoE vs Wi-Fi]
