Price: **839.99 zł** gross / 682.92 zł net

Manufacturer: AQARA

Referention number: DNXXGHIHKHRLNL

Information:

Aqara Camera Hub G5 Pro Wi-Fi is an intelligent outdoor security camera with Zigbee 3.0 hub, Matter controller and Thread border router functionality, ideal for expanding a smart home. It offers 2.6K image quality with a wide 133° viewing angle and True Full-Colour Night Vision thanks to the bright f/1.0 lens and LED spotlight. Built-in AI recognises faces, people, vehicles, motion and sounds, enabling automations and rapid responses. The camera has a 100 dB siren, two-way communication, local 32 GB eMMC storage, NAS support, RTSP and HomeKit Secure Video, as well as end-to-end encryption. 2.4/5 GHz Wi-Fi connectivity, USB-C and IP65 resistance ensure convenient installation and reliable operation in harsh conditions.

Full product description

Aqara Camera Hub G5 Pro Wi-Fi - Smart camera with Zigbee hub for your home

Protect your home with modern technology and enjoy intelligent security thanks to **Aqara Camera Hub G5 Pro Wi-Fi**. It is not just a camera – it is an advanced monitoring device that also serves as a **Zigbee hub, Matter controller and Thread router**, providing full control over your smart home. Thanks to **artificial intelligence, colour night mode and end-to-end encryption**, you can be sure that your data is safe and your home is well protected.

Advantages of the Aqara Camera Hub G5 Pro

- **Zigbee 3.0 Hub, Matter Controller, Thread Border Router** – easily connect to the full range of additional Aqara sensors and devices.
- **Advanced artificial intelligence** – the camera recognises faces, sounds and motion, enabling smart automations.
- **True Full-Colour Night Vision** – better image quality after dark.
- **Local and cloud recordings** – 32 GB eMMC + option to store on NAS or in the cloud.
- **Built-in 100 dB siren** – deter intruders with two-way communication.
- **Weather resistance** – IP65 certification guarantees operation even at -30°C.
- **RTSP and Home Assistant integration** – full control over video recording and streaming.

Smart home – automations tailored to your needs

With Aqara Home and Zigbee 3.0, you can create smart scenarios, for example:

- When the camera detects motion, it automatically turns on the light and adjusts its brightness.
- If it recognises an unknown face, it triggers an alarm and notifies you on your phone.
- Thanks to the motion sensor, it records only when necessary, saving space.

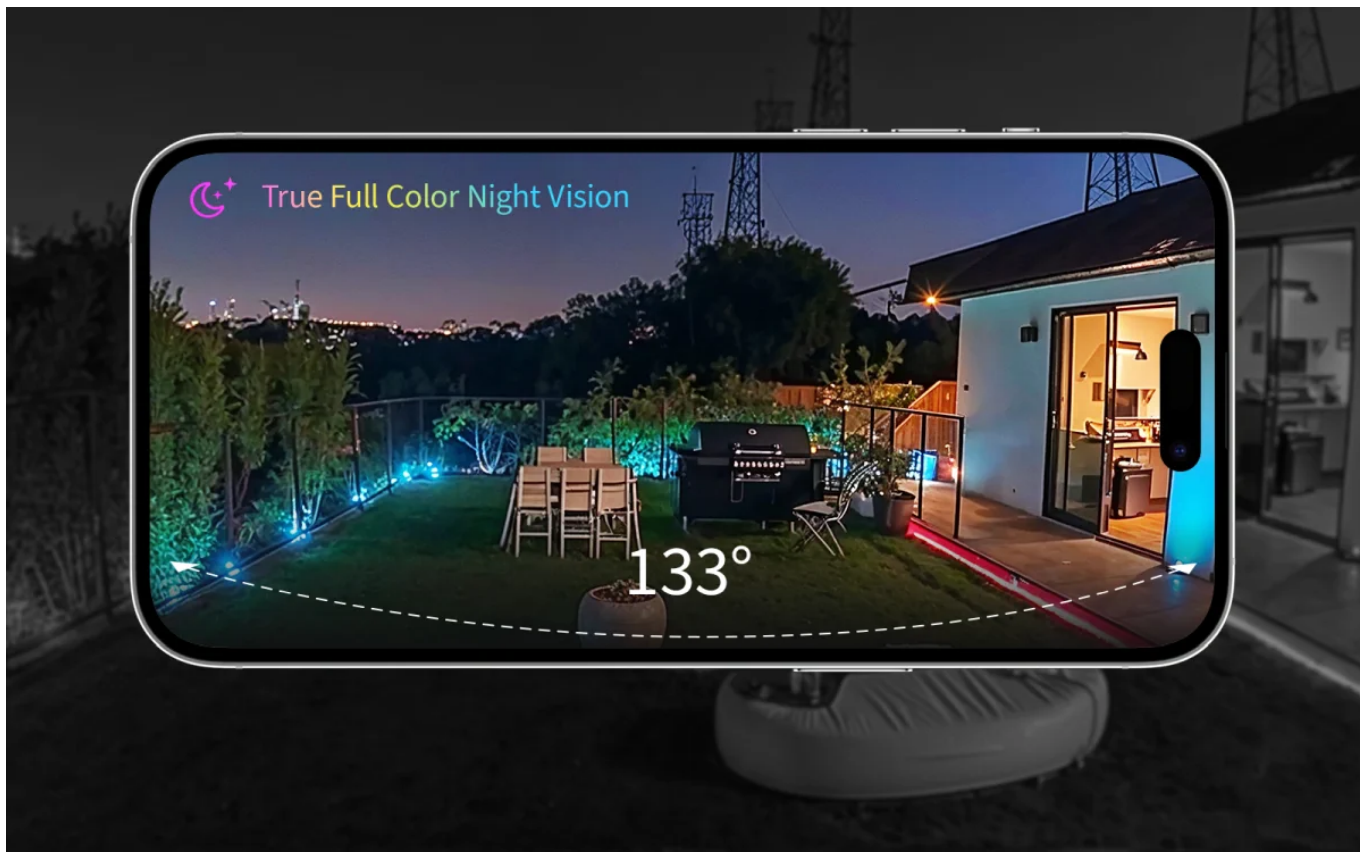

Artificial intelligence technology and support for smart home platforms

Aqara Camera Hub G5 Pro is the first outdoor **Aqara camera** that integrates **Zigbee 3.0, Matter and Thread**, allowing seamless communication with other smart home devices. Support for platforms such as **Apple HomeKit, Google Home and Amazon Alexa** means you can fully automate your home – from monitoring to controlling lighting and alarms. Thanks to **built-in AI**, the camera can **recognise household members' faces** as well as detect vehicles, people and sounds, enabling precise automation triggers and improved security.

True full-colour night vision - see more after dark

Thanks to the **4 MP 1/1.8" sensor and wide 133° field of view**, the Aqara G5 Pro camera records in **2.6K resolution (2688×1520)**, delivering exceptional quality even after dark. The **large f/1.0 aperture lets in 4 times more light** than standard lenses, which combined with **True Full-Colour Night Vision** technology guarantees clear, full-colour recordings without the need for black-and-white mode. The built-in **LED spotlight** additionally brightens dark areas and can act as a deterrent to intruders.

Security at the highest level - protecting your data

Thanks to **end-to-end encryption**, your recordings remain private – even if you use the cloud. **HomeKit Secure Video**, local storage on **32 GB eMMC**, the option to save to NAS and RTSP integration mean you have full control over your data.

Wireless freedom - stable Wi-Fi connectivity for flexible installation

For users who prefer **wireless solutions**, the **Aqara Camera Hub G5 Pro Wi-Fi** offers **dual-band 2.4/5 GHz Wi-Fi connectivity**, ensuring smooth video transmission without delays or interference. **WPA3 support** provides additional security for your home network, protecting recordings from unauthorised access. Thanks to **USB-C power supply (5V/2A)**, the camera offers greater flexibility in installation – simply connect it to any power source, without the need to run Ethernet cables. This is an excellent solution for those who value **easy installation** and the ability to quickly integrate with a smart home system.

Advanced outdoor monitoring - reliable protection in all conditions

Aqara Camera Hub G5 Pro was designed for **outdoor monitoring**, offering a **durable IP65-rated housing** that effectively protects against rain, dust and snow. The camera operates reliably in extreme temperatures - **from -30°C to +50°C**, making it an ideal choice for both harsh winters and hot summers. Thanks to easy integration with the **Aqara Home app**, **advanced AI detection**, a **built-in 100 dB siren** and **two-way voice communication**, the G5 Pro provides full control over the area around your home, allowing you to respond quickly in any situation.

Aqara G5 Pro - The best camera for a smart home? [Zigbee, Matter, AI, PoE vs Wi-Fi]
