Aqara

Manufacturer: AQARA

Referention number: DNXXGGIOOMRMMPM

Information:

Aqara Camera Hub G2H Pro is an upgraded Full HD 1080p camera with a wide 146° field of view and night mode with invisible 940 nm IR illumination. It offers full compatibility with Apple HomeKit Security System and support for Google Assistant and Amazon Alexa. The built-in Zigbee 3.0 hub allows you to connect up to 128 Aqara sensors and controllers, creating an extensive home automation system. The camera supports microSD cards up to 512 GB and NAS recording, while the Timelapse function enables a quick summary of the day. In addition, it provides detection zones, a local privacy mask and flexible mounting options.

Product features

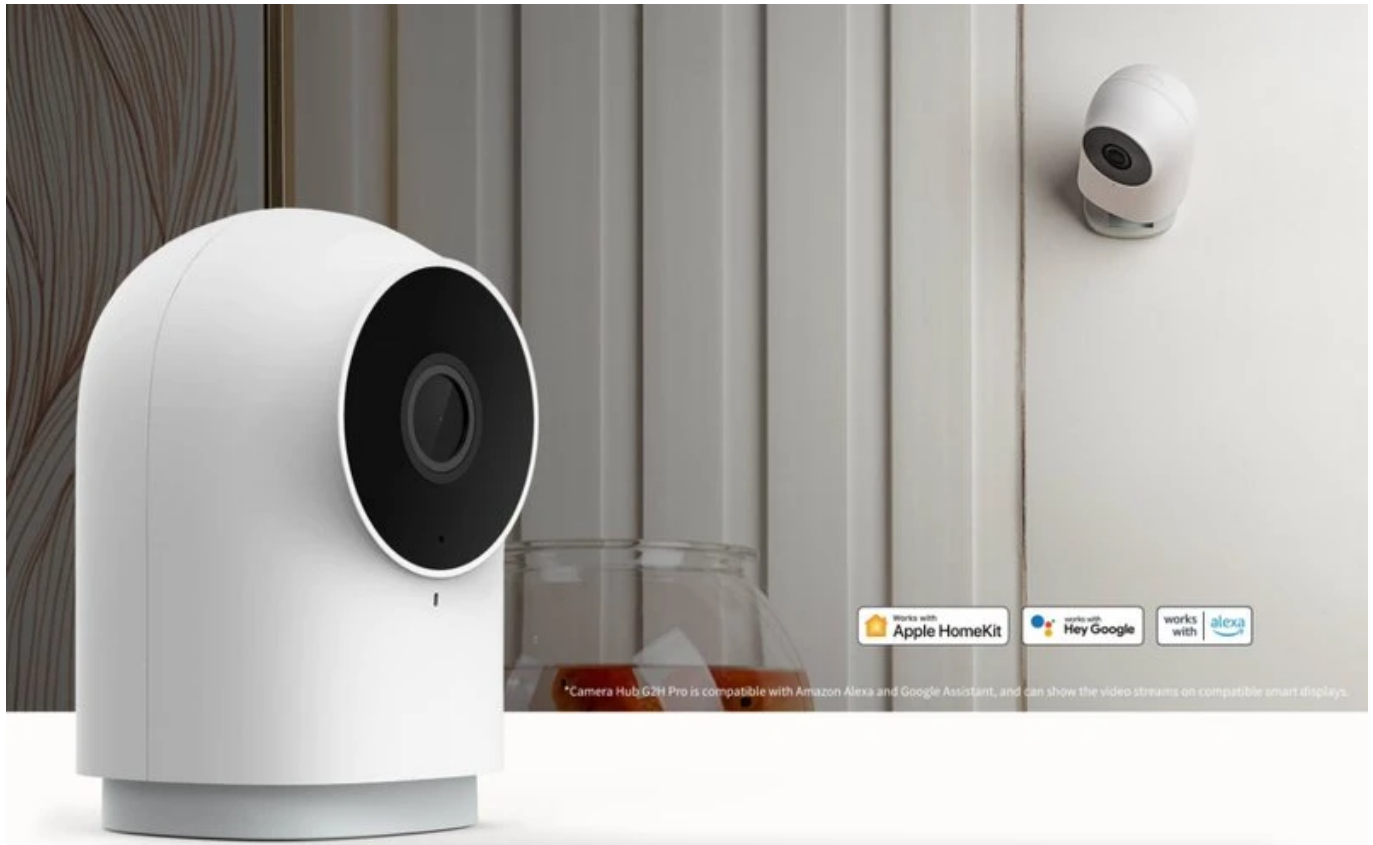

Height	82.4 mm
LED indicators	Yes
USB charging port	Yes
Width	56.5 mm
Depth	50.5 mm
Connectivity technology	Wired & Wireless
Maximum resolution	1920 pixels
Security algorithms	WPA3
Mounting kit	Yes
Cables included	USB
Remotely operated	Yes
Audio system	2-way
Power consumption (max)	5 W
Alert notification type	Push notification
Privacy protection	Yes

Night mode	Yes
Humidity measurement range	15 - 85%
Motion sensor technology	Passive infrared (PIR) sensor
Networking standards	IEEE 802.15.4
DC output current	1 A
Number of cameras	1
Smartphone/tablet remote support	Yes
Number of lenses	1
IFU / User manual	Yes
Active tampering alarm	Yes
Operating temperature (T-T)	-10 - 40 °C
LED type	IR
Network access storage (NAS)	Yes
Supported network protocols	Zigbee 3.0
Cloud-managed	Yes
Screws included	Yes
Card reader integrated	Yes
Lens viewing angle, diagonal	146 °
Total megapixels	2 MP
Maximum memory card size	512 GB
Compatible memory cards	MicroSD (TransFlash)
Wi-Fi standards	802.11b
Wi-Fi	Yes
Ethernet LAN	Yes
AC input voltage	5 V
Built-in speaker(s)	Yes
Built-in HDD	No
Supported video modes	1080p
Power source type	AC
Motion sensor	Yes
Product colour	White
Mounting hardware type	Wall
Type	IP security camera
Designation	Indoor & outdoor

Full product description

Aqara G2H Pro - an improved version of a great camera

Aqara Camera Hub G2H Pro is an improved version of the excellent G2H camera. Support for **Google and Amazon Alexa** assistants has been expanded. The camera now supports **all Apple HomeKit Security System modes**. **Support for larger microSD cards (up to 512 GB)** means more space for storing your video footage. The increased **field of view to 146 degrees** provides a view of the entire room. Thanks to the **Timelapse** function, you can watch a summary of monitoring from the whole day.

Advantages of the Aqara Camera Hub G2H

- Built-in ZigBee 3.0 Hub
- Versatile compatibility
- More complete support for HomeKit
- Works with NAS, supports larger microSD cards
- Quick preview with Timelapse function
- Wider 146-degree field of view
- Automation in combination with Aqara sensors

Full compatibility

Camera Hub G2H Pro is compatible with a wide range of smart home ecosystems and voice assistants. It can stream to the **Apple Home** app, as well as to **Amazon and Google** smart displays.

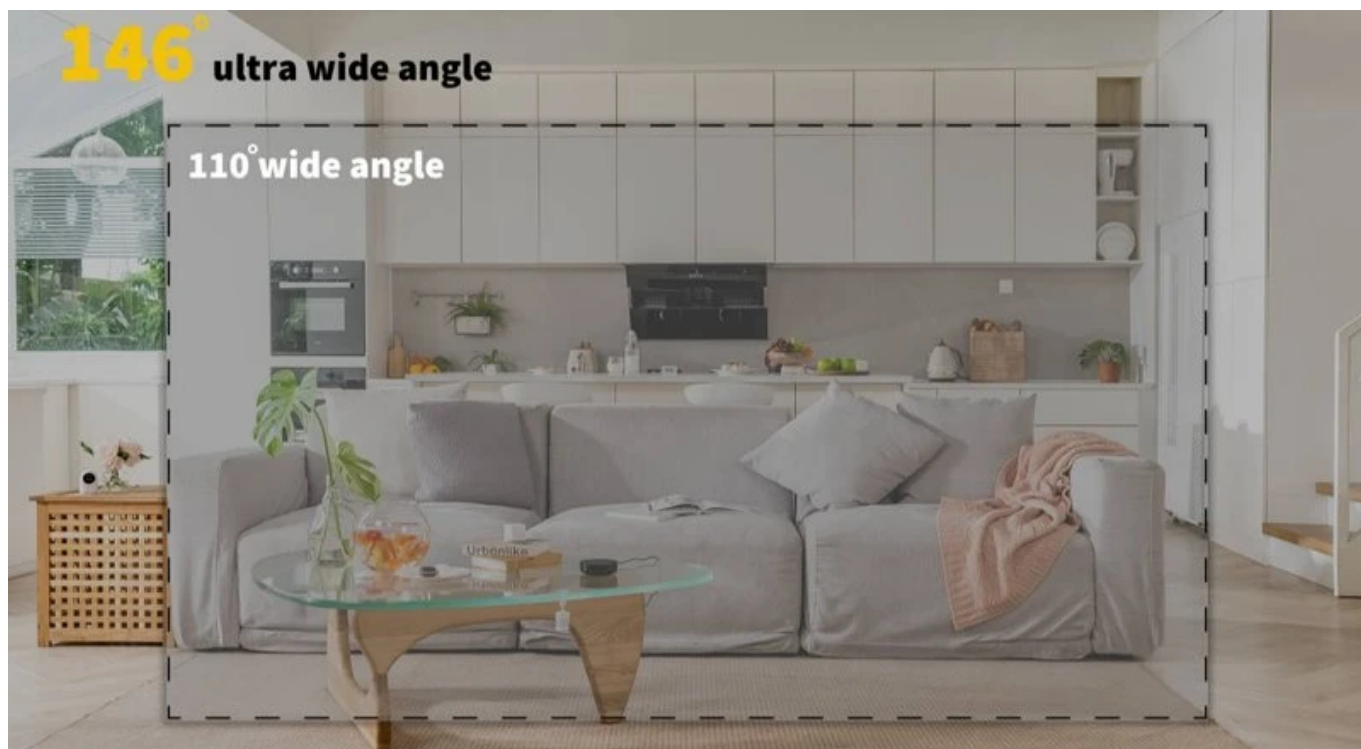

Not just a camera, but also a ticket to a truly smart life

Thanks to the **built-in Zigbee 3.0 hub**, G2H Pro can connect up to 128 Aqara sensors and controllers, allowing you to enjoy home automation, remote control and support for third-party ecosystems.

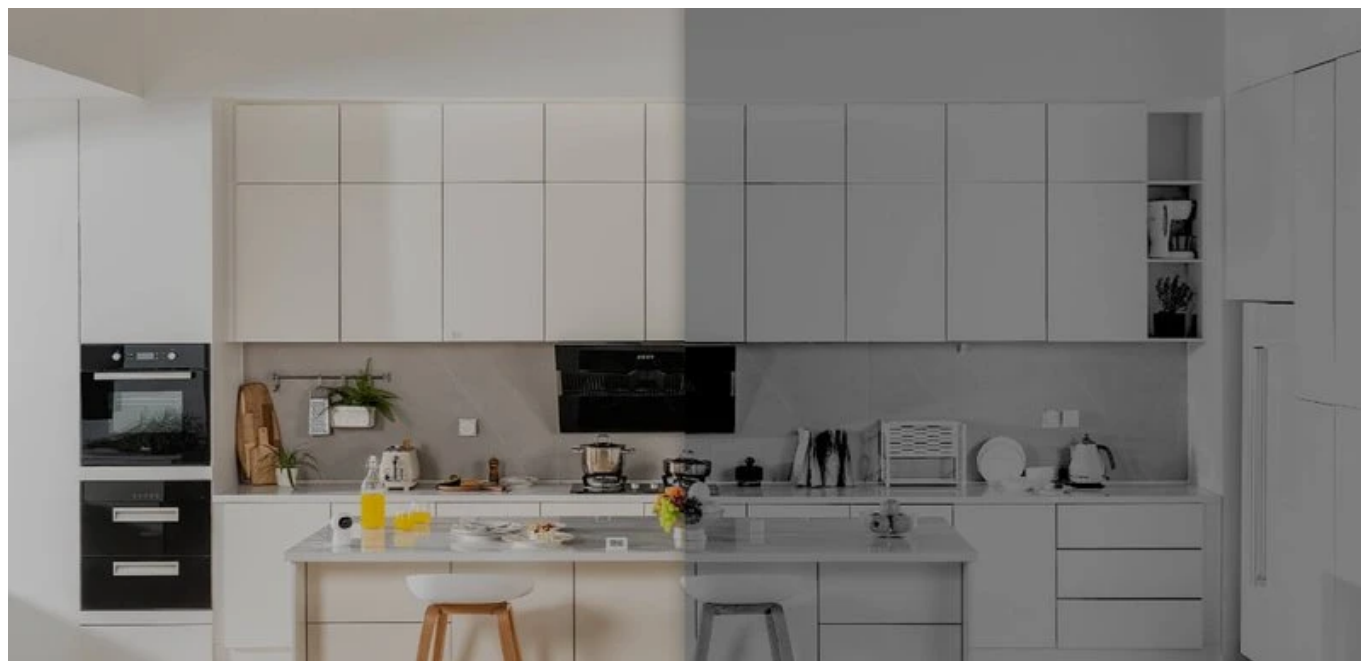

Wide field of view, Full HD resolution, many mounting options

G2H Pro now supports an even wider **146-degree** viewing angle and the so-called "**fisheye**", which makes it possible to use one camera for an entire room.

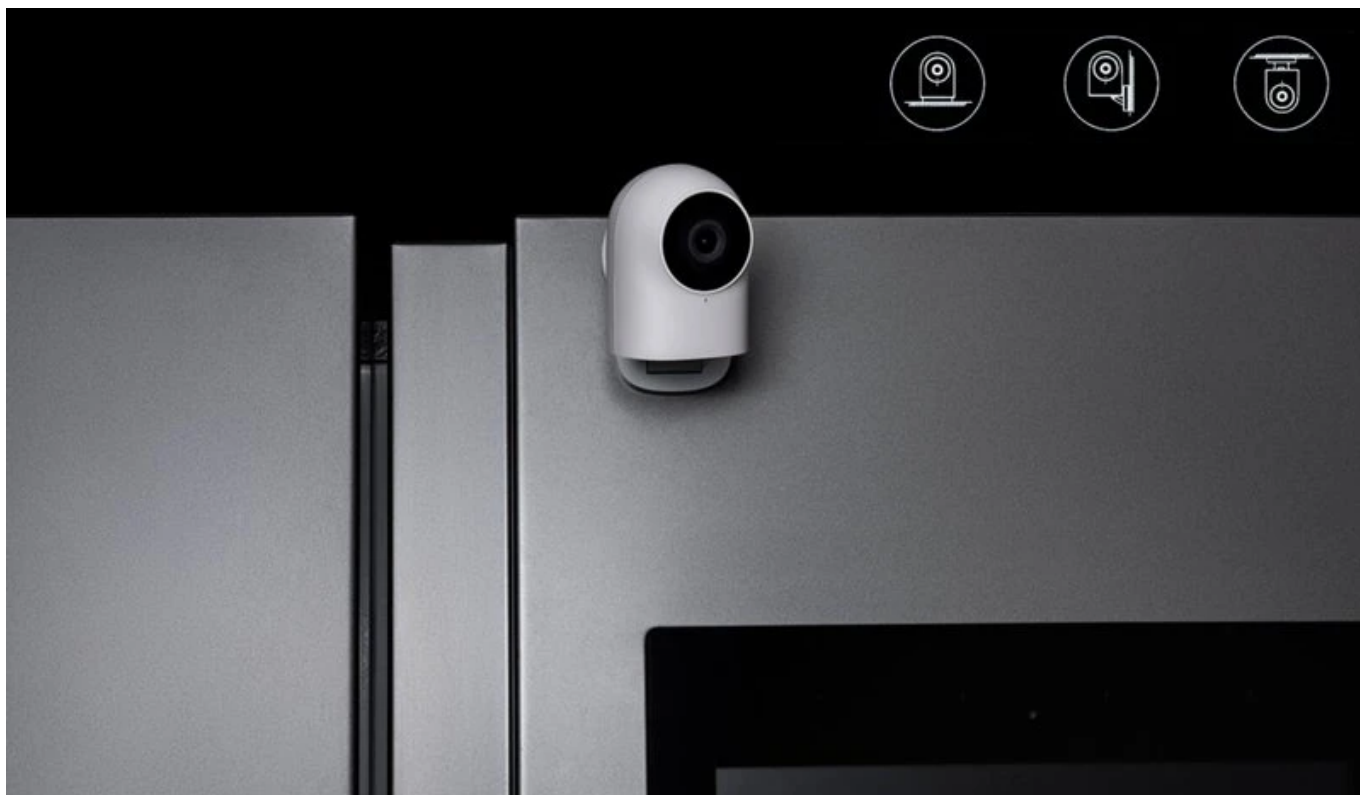

Clear and sharp image at night in Full HD 1080p

The image captured by the 1080p sensor is crystal clear, regardless of how bright or dark the surroundings are. The built-in 940nm infrared LEDs do not emit an irritating glow that could disturb your sleep at night.

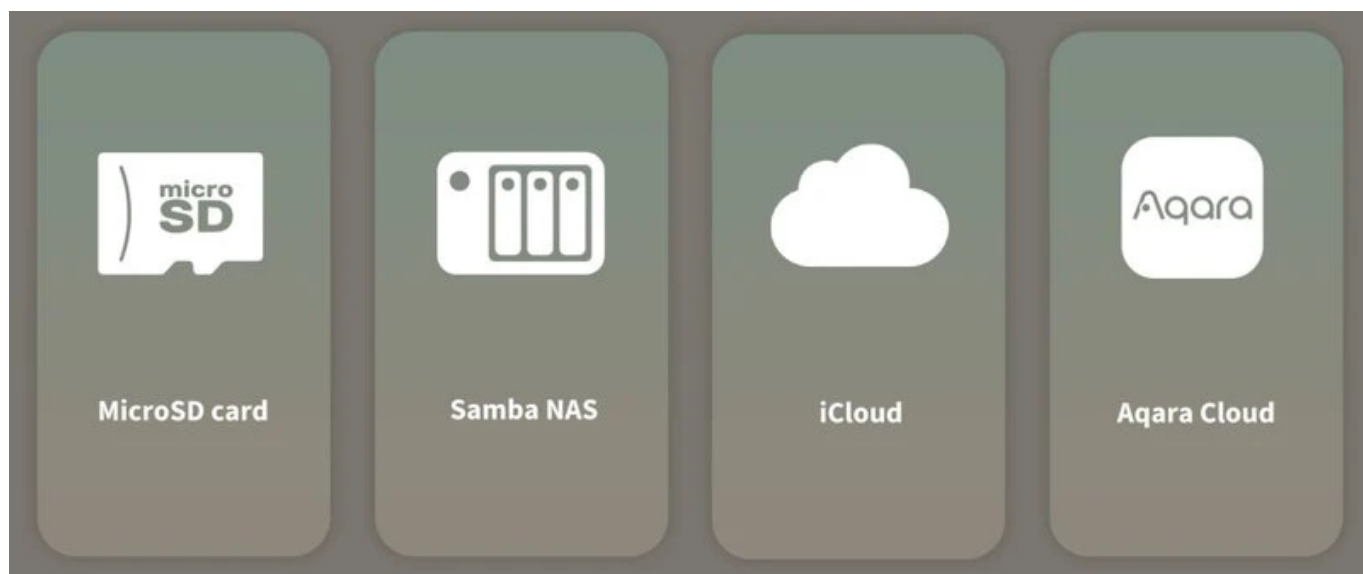

Many mounting options

The strong magnet inside the base means it can be attached to metal surfaces. The package includes an iron wall mount and screws, which allow for many installation methods.

Multiple recording storage methods

In addition to the **microSD card**, whose maximum capacity has been increased to 512 GB, **G2H Pro** also supports local NAS storage using the Samba protocol.

Powerful local automations with Aqara sensors and controllers

Connect Aqara sensors and controllers to the G2H Pro hub, and you will be able to configure powerful local automations.

Mark the areas you care about, or disable areas to increase privacy

Mark the areas to be monitored to look after your child or pet and reduce the number of unnecessary alarms. What is more, G2H Pro now has the **Local Privacy Masking** function, which can prevent certain parts of the image from being recorded or sent to third-party servers such as Google or Amazon.

Timelapse function and useful notifications

The **G2H Pro camera** will notify you via **push messages on your smartphone** and the built-in siren, and will also record a short clip if unusual sound or motion is detected. In addition, the camera now supports generating **timelapse** clips, allowing you to summarise the day in one short video.
