Wi-Fi data rate (max)	300 Mbit/s
Operating temperature (T-T)	-10 - 40 °C
AC adapter included	No
ZigBee	Yes
Wi-Fi standards	802.11b
Wi-Fi	Yes
Ethernet LAN	No
USB version	2.0
Holding capacity	2.5 W
Product colour	White
Built-in display	No

Full product description

Aqara Hub E1

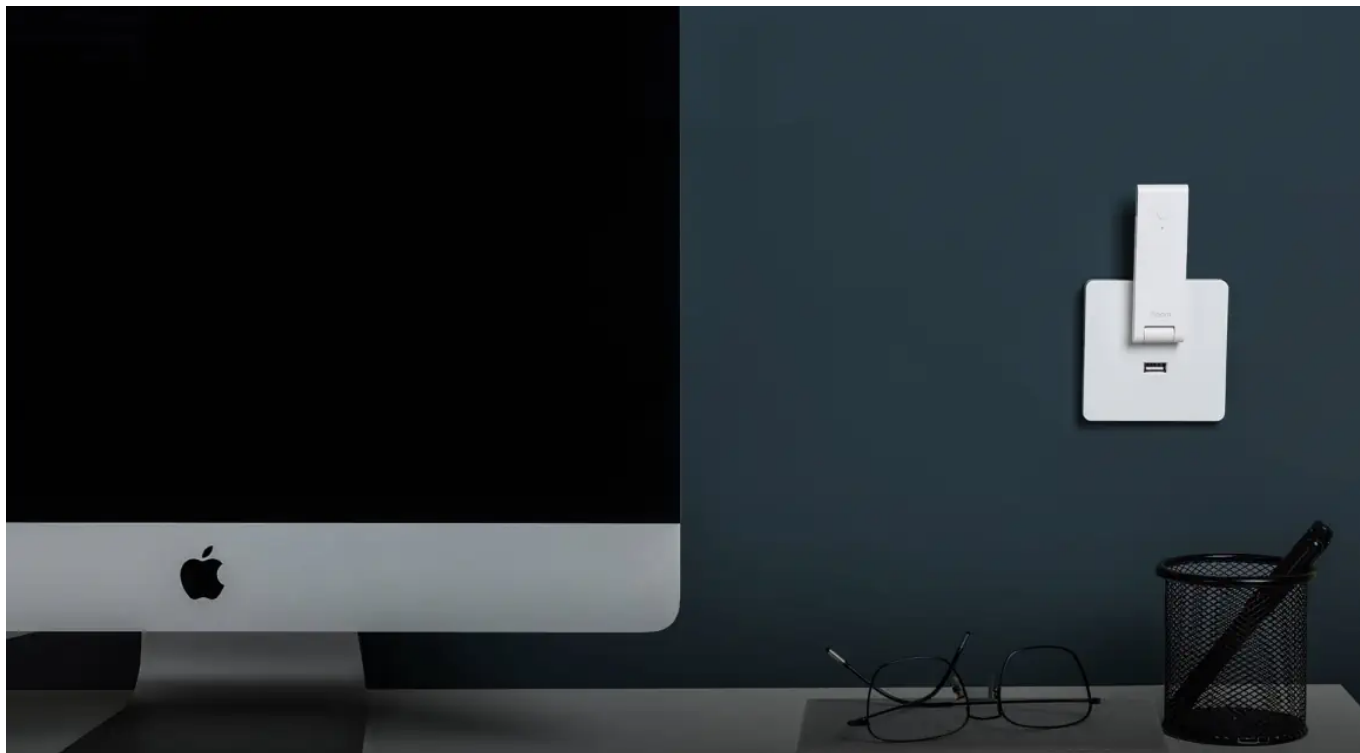

The small but powerful **Aqara smart home hub** that supports both classic and latest Aqara devices. The device takes up little space and can be placed almost anywhere. Supports both classic and latest Aqara Zigbee devices and can be used as a **Wi-Fi repeater** at the same time.

Zigbee 3.0 concentrator for up to 128 devices

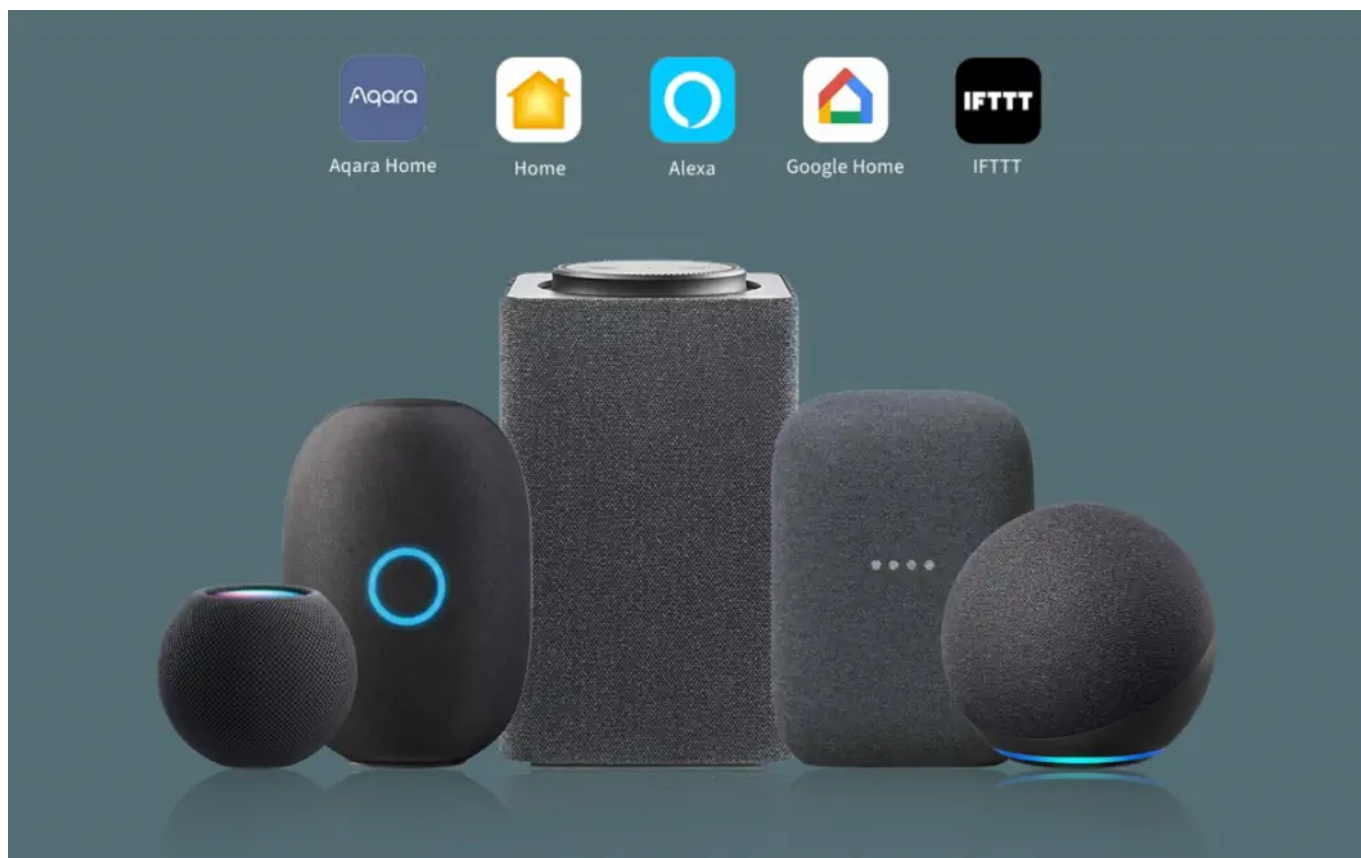

Enjoy the benefits of the fastest, most stable and energy efficient smart home technology. Better **stability and compatibility** (more standardized protocol), longer support and more features.

To connect **128 devices**, Zigbee routers/repeaters are required, such as Smart Wall Switch, Smart Plug, etc.

Comprehensive compatibility

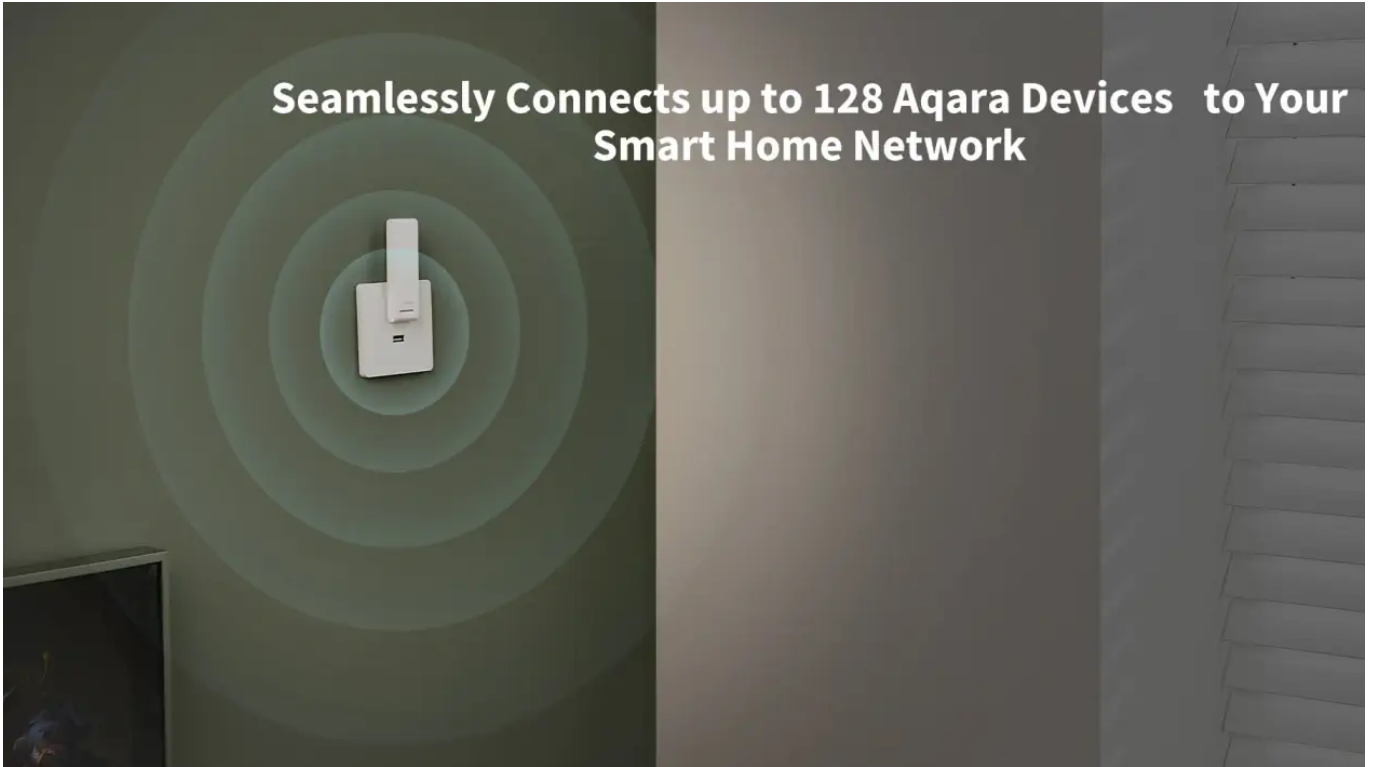

Aqara Hub E1 makes your Aqara devices compatible with a wide **range of popular ecosystems and voice assistants**. For example, Apple HomeKit, Amazon Alexa, Google Assistant, IFTTT and more are supported.

USB-A power supply and 210° adjustable shaft

A regular USB-A port is integrated into the hub's housing, so it can be powered from almost any USB-equipped device such as a powerbank, power strip, outlet, computer, or even a router. The **Hub E1**'s shaft angle can be changed within 210 degrees, making its placement extremely flexible.

Seamlessly Connects up to 128 Aqara Devices to Your Smart Home Network

Main features

- Zigbee 3.0 protocol
- Powered by USB-A
- All-round compatibility
- 210 Adjustable Shaft
- Wi-Fi Repeater function
- Flexibility and portability
